SYMBOLS

The following symbols shall be used in this tariff for the purpose indicated below:

- (C) - To signify a change in text
- (D) - To signify decreased rate
- (I) - To signify increased rate
- (K) - To signify that material has been transferred to another sheet or place in the tariff.
- (R) - Reduction
- (N) - New rate or rule
- (M) - To signify that material has been transferred from another sheet or place in the tariff.
- (T) - To signify a change in text or regulation but no change in rates

LOCAL EXCHANGE SERVICES TARIFF

TARIFF FORMAT

- A. **Page Numbering** - Page numbers appear in the upper right corner of the page. pages are numbered sequentially, however, new pages are occasionally added to the Tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.
- B. **Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file. For example, the 4th Revised Page 14 cancels the 3rd Revised Page 14.
- C. **Paragraph Numbering Sequence** - There are five levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
 - 2.1
 - 2.1.1
 - 2.1.1. (A)
 - 2.1.1.(A).1
 - 2.1.1.(A).1.a
 - 2.1.1.(A).1.a.i
- D. **Check Sheets** - When a Tariff filing is made with the Commission, an updated check sheet accompanies the Tariff filing. The check sheet lists the pages contained in the Tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the addition. The Tariff user should refer to the latest check sheet to find out if a particular page is the most current on file with the Commission.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS

Advance Payment - Payment of all or part of a charge required before the start of service.

Authorized User - A person, firm, corporation or other entity that either is authorized by the Customer to use local exchange telephone service or is placed in a position by the Customer, either through acts or omissions, to use local exchange telephone service.

Call Forward Busy - Automatically routes incoming calls to a designated answering point when the called line is busy.

Call Forward No Answer - Automatically routes incoming calls to a designated answering point when the called line does not answer within a pre-specified number of rings.

Call Forward Variable - Automatically routes incoming calls to a designated answering point, regardless of whether the user's Station is idle or busy.

Call Hold - Allows the User to hold one call for any length of time provided that neither party goes On Hook.

Call Park - Allows a User to "park" a call against their directory number within the business group and "unpark" the call from any other directory number. A business group consists of a series of Customer-defined telephone numbers.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS, (CONT'D.)

Call Pickup - Allows a User to answer incoming calls to another Station line within a defined call pickup group. Call Pickup is provided as either Group Call Pickup, where predesignated groups can pickup each other's calls by activating an access code or a feature key, or Directed Call Pickup, where any call can be retrieved by dialing a different access code followed by the extension number.

Call Transfer/Consultation/Conference - Provides the capability to transfer or add a third party, using the same line.

Call Waiting - Provides the User with a burst of tone to indicate that another call is waiting. The second call can either be answered by flashing the switch hook or hanging up the phone and being rung back by the caller.

Call Waiting Cancel - Allows a User to cancel the Call Waiting feature on a per call basis by dialing a specific two digit code.

Calling Number Delivery - Identifies the 10-digit number of the calling party.

Calling Number Delivery Blocking - Blocks the delivery of the number to the called party on a per call or per line basis.

Company - XO Communications Services, Inc., a Delaware corporation, which is the issuer of this tariff.

Commission - The Arizona Corporation Commission.

Conference/Three-Way/Six-Way - The User can sequentially call up to two/five other people and add them together to make up a three/six way call.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS, (CONT'D.)

Customer - The person, firm, corporation or other entity which orders service and is responsible for the payment of charges and for compliance with the Company's tariff regulations.

Customer Group Dialing Plan - A dialing scheme shared by the members of a Customer group, such as 4 digit internal dialing.

Dial Pulse ("DP") - The pulse type employed by rotary dial Station sets.

Direct Inward Dialing ("DID") - A service attribute that routes incoming calls directly to Stations, by-passing a central answering point.

Do Not Disturb - Allows the User to prevent incoming calls from ringing its line by diverting them to a tone or a recorded announcement that informs the caller that the User is not accepting calls at this time.

Dual Tone Multi-Frequency ("DTMF") - The pulse type employed by tone dial Station sets.

Hunting - Routes a call to an idle Station line. With Serial Hunting, calls to a member of a hunt group will search from that point to the end of the group and stop.

Individual Case Basis - A service arrangement in which the regulations, rates and charges are developed based on the specific circumstances of the Customer's situation.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS, (CONT'D.)

Joint User - A person, firm or corporation designated by the Customer as a user of local exchange service furnished to the Customer by the Company, and to whom a portion of the charges for such facilities are billed under a joint use arrangement.

LATA - A local access and transport area established pursuant to the Modification of Final Judgment entered by the United States District Court for the District of Columbia in Civil Action No. 82-0192 for the provision and administration of communications services.

Least Idle Trunk Selection ("LIDL") - LIDL trunk selection occurs when a switching unit selects from a Trunk group the Trunk that has been idle for the shortest period of time.

Local Calling - A completed call or telephonic communication between a calling Station and any other station within the local service area of the calling Station.

Local Exchange Carrier - Any individual, partnership, association, joint-stock company, trust, governmental entity or corporation engaged in the provision of local exchange telephone service.

Mbps - Megabits, or million of Bits, per second.

Message Waiting - This feature provides an indication to a Station User that a message is waiting. Indications may be visual (lamp) or audible (stuttered dialtone).

Most Idle Trunk Selection ("MIDL") - MIDL Trunk selection occurs when a switching unit selects from a Trunk group the Trunk that has been idle for the longest period of time.

Multiple Appearance Directory Numbers - A directory number that is assigned more than once to one or more Proprietary Business Sets.

Multi-Frequency ("MF") - An inter-machine pulse-type used for signaling between telephone switches, or between telephone switches and PBX/key systems.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS, (CONT'D.)

Non-Recurring Charges - The one-time initial charges for services or facilities, including but not limited to charges for construction, installation, or special fees, for which the Customer becomes liable at the time the Service Order is executed.

Off-Hook - The term "off-hook" denotes the active condition of a telephone exchange service line.

On-Hook - The term "on-hook" denotes the idle condition of a telephone exchange service line.

Originating Off-Net - A call originating on and placed via facilities neither owned or leased by the Company.

Originating On-Net - A call originating on and placed via facilities owned or leased by the Company.

Recurring Charges - The monthly charges to the Customer for services, facilities and equipment, which continue for the agreed upon duration of the service.

Presubscription - Presubscription is an arrangement whereby an end user may select and designate to the Company an interexchange carrier (IXC) to access, without an access code, for toll calls. This IXC is referred to as the end user's predesignated IXC.

Service Commencement Date - The day on which the Company notifies the Customer that the requested service or facility is available for use, unless extended by the Customer's refusal to accept service which does not conform to standards set forth in the Service Order or this tariff, in which case the Service Commencement Date is the date of the Customer's acceptance of service. The parties may mutually agree on a substitute Service Commencement Date.

Service Order - The written request for local exchange services executed by the Customer and the Company in a format specified by the Company. The signing of a Service Order by the Customer and acceptance thereof by the Company initiates the respective obligations of the parties as set forth therein and pursuant to this tariff, but the duration of the service is calculated from the Service Commencement Date.

Service Outage - A disruption or degradation of On-Net Service.

Services: The Company's telecommunications services offered on the Company's network.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS, (CONT'D.)

Special Construction: Subject to the arrangement of the Company and to all of the regulations contained in this tariff, special construction of facilities may be undertaken on a reasonable efforts basis at the request of the Customer. Special construction is that construction undertaken: where facilities are not presently available, and Company agrees to construct those facilities; of a type other than that which the Company would normally utilize in the furnishing of its services; over a route other than that which the Company would normally utilize in the furnishing of its services; in a quantity greater than that which the Company would normally construct; on an expedited basis; on a temporary basis until permanent facilities are available; involving abnormal costs; or in advance of its normal construction.

Speed Call - Provides a User with the option to call selected directory numbers by dialing a one or two-digit code.

Station - Telephone equipment from or to which calls are placed.

Trunk - A communications path connecting two switching systems in a network, used in the establishment of an end-to-end connection.

User - A Customer or any other person authorized by the Customer to use service provided under this tariff.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.1 Undertaking of the Company2.1.1 Scope

The Company undertakes to furnish communications service in connection with one-way and/or two-way information transmission between points within the State of Arizona under the terms of this tariff.

Customers may use services and facilities provided under this tariff to obtain access to services offered by other service providers. The Company is responsible under this tariff only for the services and facilities provided herein, and it assumes no responsibility for any service provided by any other entity that purchases access to the Company network in order to originate or terminate its own services, or to communicate with its own Customers.

2.1.2 Shortage of Equipment or Facilities

- A. The Company reserves the right to limit or allocate the use of existing facilities, or of additional facilities offered by the Company when necessary because of lack of facilities or due to some other cause beyond the Company's control.
- B. The furnishing of service under this tariff is subject to the availability on a continuing basis of all the necessary facilities and is limited to the capacity of the Company's fiber optic cable facilities as well as facilities the Company may obtain from other carriers, from time to time, to furnish service as required at the sole discretion of the Company.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.1 Undertaking of the Company (Cont'd.)

2.1.3 Terms and Conditions

- A. Except as otherwise provided herein, service is provided and billed on the basis of a minimum period of at least one month, and shall continue to be provided until canceled by the Customer, in writing, on not less than 30 days notice. Unless otherwise specified herein, for the purpose of computing charges in this tariff, a month is considered to have 30 days. All calculations of dates set forth in this tariff shall be based on calendar days, unless otherwise specified herein.
- B. Customers may be required to enter into written Service Orders which shall contain or reference the name of the Customer, a specific description of the service ordered, the rate to be charged, the duration of the services, and the terms and conditions in this tariff.
- C. At the expiration of the initial term specified in each Service Order, or in any extension thereof, service shall continue on a month to month basis at the then current rates unless terminated by either party upon 30 days written notice. Any termination shall not relieve Customer of its obligation to pay any charges incurred under the Service Order and this tariff prior to termination. The rights and obligations which by their nature extend beyond the termination of the term of the Service Order shall survive such termination.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.1 Undertaking of the Company (Cont'd.)

2.1.3 Terms and Conditions (Cont'd.)

- D. This tariff shall be interpreted and governed by the laws of the State of Arizona without regard to the State's choice of laws provisions.
- E. Another telephone company must not interfere with the right of any person or entity to obtain service directly from the Company.
- F. The Customer has no property right to the telephone number or any other call number designation associated with services furnished by the Company. The Company reserves the right to change such numbers, or the central office designation associated with such numbers, or both, assigned to the Customer, whenever the Company deems it necessary to do so in the conduct of its business.
- G. The Customer agrees to operate Company-provided equipment in accordance with instructions of the Company or the Company's agent. Failure to do so will void Company liability for interruption of service and may make the Customer responsible for damage to equipment pursuant to Section 2.1.3.(H) below.
- H. The Customer agrees to return to the Company all Company-provided equipment delivered to Customer within five (5) days of termination of the service in connection with which the equipment was used. Said equipment shall be in the same condition as when delivered to Customer, normal wear and tear only excepted. Customer shall reimburse the Company, upon demand, for any costs incurred by the Company due to Customer's failure to comply with this provision.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.1 Undertaking of the Company (Cont'd.)2.1.4 Liability of the Company

Because the Customer has exclusive control of its communications over the services furnished by the Company, and because interruptions and errors incident to these services are unavoidable, the services the Company furnishes are subject to the terms, conditions, and limitations specified in this tariff and to such particular terms, conditions, and limitations as set forth in the special regulations applicable to the particular services and facilities furnished under this tariff.

- A. The liability of the Company for damages arising out of the furnishing of these services, including but not limited to mistakes, omissions, interruptions, delays, or errors, or other defects, representations, or use of these services or arising out of the failure to furnish the service, whether caused by acts of commission or omission, shall be limited to the extension of allowances for interruption. The extension of such allowances for interruption shall be the sole remedy of the Customer, authorized user, or joint user and the sole liability of the Company.
- B. The Company shall not be liable or responsible for any special, consequential, exemplary or punitive damages or lost profits whether or not caused by the intentional acts or omissions or negligence of the Company's employees, agents or contractors.
- C. The Company shall not be liable for any failure of performance or equipment due to causes beyond its control, including but not limited to: acts of God, fire, flood or other catastrophes; any law, order, regulation, direction, action, or request of the United States Government, or of any other government, including state and local governments having or claiming jurisdiction over the Company, or of any department, agency, commission, bureau, corporation, or other instrumentality of any one or more of these federal, state, or local governments, or any civil or military authority; national emergencies; insurrections; riots; wars; unavailability of rights-of-way or materials; or strikes, lock-outs, work stoppages, or other labor difficulties.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.1 Undertaking of the Company (Cont'd.)

2.1.4 Liability of the Company (Cont'd)

- D. The Company shall not be liable for any act or omission of any entity furnishing to the Company or to the Company's Customers' facilities or equipment used for or with the services the Company offers.
- E. The Company shall not be liable for any damages or losses due to the fault or negligence of the Customer or due to the failure or malfunction of Customer provided equipment or facilities.
- F. The Company shall not be liable for the claims of vendors supplying equipment to Customers of the Company which may be installed at premises of the Company nor shall the Company be liable for the performance of said vendor or vendor's equipment.
- G. The Company does not guarantee nor make any warranty with respect to installations it provides for use in an explosive atmosphere. The Customer indemnifies and holds the Company harmless from any and all loss, claims, demands, suits, or other action, or any liability whatsoever, whether suffered, made, instituted, or asserted by any other party or person(s), and for any loss, damage, or destruction of any property, whether owned by the Customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location, or use of any installation so provided.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.1 Undertaking of the Company (Cont'd.)

2.1.4 Liability of the Company (Cont'd)

- H. The Company is not liable for any defacement of, or damage to, the premises of a Customer (or authorized or joint user) resulting from the furnishing of services or equipment on such premises or the installation or removal thereof, when such defacement or damage is not the result of negligence or willful misconduct on the part of the agents or employees of the Company.
- I. The Company shall not be liable for any damages resulting from delays in meeting any service dates due to delays resulting from normal construction procedures. Such delays shall include, but not be limited to, delays in obtaining necessary regulatory approvals for construction, delays in obtaining right-of-way approvals and delays in actual construction work.
- J. The Company shall not be liable for any damages whatsoever to property resulting from the installation, maintenance, repair or removal of equipment and associated wiring unless the damage is caused by the Company's willful misconduct or negligence.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.1 Undertaking of the Company (Cont'd.)2.1.5 Notification of Service-Affecting Activities

The Company will provide the Customer reasonable notification of service-affecting activities that may occur in normal operation of its business. Such activities may include, but are not limited to, equipment or facilities additions, removals or rearrangements and routine preventative maintenance. Generally, such activities are not specific to an individual Customer but affect many Customers services. No specific advance notification period is applicable to all service activities. The Company will work cooperatively with the Customer to determine the reasonable notifications requirements. With some emergency or unplanned service-affecting conditions, such as outage resulting from cable damage, notification to the Customer may not be possible.

2.1.6 Provision of Equipment and Facilities

- A. Where construction is required, the Company shall use reasonable efforts to make available services to a Customer on or before a particular date, subject to the provisions of and compliance by the Customer with, the regulations contained in this tariff. The Company does not guarantee availability by any such date and shall not be liable for any delays in commencing service to any Customer.
- B. The Company shall use reasonable efforts to maintain facilities that it furnishes to the Customer. The Customer may not, nor may the Customer permit others to, rearrange, disconnect, remove, attempt to repair or otherwise interfere with any of the facilities installed by the Company, except upon the written consent of the Company.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.1 Undertaking of the Company (Cont'd.)2.1.6 Provision of Equipment and Facilities (Cont'd)

- C. Equipment installed at the Customer Premises for use in connections with the services the Company offers shall not be used for any purpose other than that for which the Company provided it.
- D. The Company shall not be responsible for the installation, operation, or maintenance of any Customer-provided communications equipment. Where such equipment is connected to the facilities furnished pursuant to this tariff, the responsibility of the Company shall be limited to the furnishing of facilities offered under this tariff and to the maintenance and operation of such facilities. Beyond this responsibility, the Company shall not be responsible for:
 - 1. the transmission of signals by Customer-provided equipment or for the quality of, or defects in, such transmission; or
 - 2. the reception of signals by Customer-provided equipment; or
 - 3. network control signaling where such signaling is performed by Customer-provided network control signaling equipment.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.1 Undertaking of the Company (Cont'd.)2.1.7 Non-routine Installation

At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or in hazardous locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.

2.1.8 Ownership of Facilities

Title to all facilities provided in accordance with this tariff remains in the Company, its agents or contractors.

2.1.9 Telecommunications Service Priority

The Telecommunications Service Priority System is the regulatory, administrative and operational system authorizing and providing for priority treatment, to provide and restore National Security Emergency Preparedness Telecommunications service. Under the rules of the Telecommunications Service Priority System, the Company is authorized and required to provide and restore services with Telecommunications Service Priority assignments before services without such assignments. The provision and restoration of Telecommunications Service Priority System services shall be in compliance with Part 64, Appendix A, of the Federal Communications Commission's Rules and Regulations, the guidelines set forth in the Telecommunications Service Priority for National Security Emergency Preparedness Service User Manual and Service Vendor Handbook.

2.2 Prohibited Uses

2.2.1 The service the Company offers shall not be used for any unlawful purpose or for any use as to which the Customer has not obtained all required governmental approvals, authorizations, licenses, consents and permits.

The Company may require a Customer to immediately shut down its transmission of signals if said transmission is causing interference to others.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.3 Obligations of the Customer2.3.1 General

The Customer shall be responsible for:

- A. the payment of all applicable charges pursuant to this tariff;
- B. reimbursing the Company for damage to, or loss of, the Company's facilities or equipment caused by the acts or omissions of the Customer; or the noncompliance by the Customer with these regulations; or by fire or theft or other casualty on the Customer's premises, unless caused by the negligence or willful misconduct of the employees or agents of the Company. The Company will, upon reimbursement for damages, cooperate with the Customer in prosecuting a claim against the person causing such damage and the Customer shall be subrogated to the Company's right of recovery of damages to the extent of such payment;
- C. providing at no charge, as specified from time to time by the Company, any needed personnel, equipment, space and power to operate Company facilities and equipment installed on the premises of the Customer, and the level of heating and air conditioning necessary to maintain the proper operating environment on such premises;
- D. obtaining, maintaining, and otherwise having full responsibility for all rights-of-way and conduit necessary for installation of fiber optic cable and associated equipment used to provide local exchange service to the Customer from the cable building entrance or property line to the location of the equipment space described in 2.3.1(C). Any costs associated with obtaining and maintaining the rights-of-way described herein, including the costs of altering the structure to permit installation of the Company-provided facilities, shall be borne entirely by, or may be charged by the Company to, the Customer. The Company may require the Customer to demonstrate its compliance with this section prior to accepting an order for service;

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.3 Obligations of the Customer (Cont'd)2.3.1 General (Cont'd)

- E. providing a safe place to work and complying with all laws and regulations regarding the working conditions on the premises at which Company employees and agents shall be installing or maintaining the Company's facilities and equipment. The Customer may be required to install and maintain Company facilities and equipment within a hazardous area if, in the Company's opinion, injury or damage to the Company's employees or property might result from installation or maintenance by the Company. The Customer shall be responsible for identifying, monitoring, removing and disposing of any hazardous material (e.g. friable asbestos) prior to any construction or installation work;
- F. complying with all laws and regulations applicable to, and obtaining all consents, approvals, licenses and permits as may be required with respect to, the location of Company facilities and equipment in any Customer premises or the rights-of-way for which Customer is responsible under Section 2.3.1 (d) above; and granting or obtaining permission for Company agents or employees to enter the premises of the Customer at any time for the purpose of installing, inspecting, maintaining, repairing, or upon termination of service as stated herein, removing the facilities or equipment of the Company;
- G. not creating or allowing to be placed or maintained any liens or other encumbrances on the Company's equipment or facilities; and for maintenance purposes at a time agreeable to both the Company and the Customer. No allowance for interruptions in service will be made for the period during which service is interrupted for such purposes.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.3 Obligations of the Customer (Cont'd)

2.3.2 Claims

With respect to any service or facility provided by the Company, Customer shall indemnify, defend and hold harmless the Company from all claims, actions, damages, liabilities, costs and expenses, including reasonable attorneys' fees for:

- A. any loss, destruction or damage to property of the Company or any third party, or the death of, or injury to, persons, including, but not limited to, employees or invitees of either the Company or the Customer, to the extent caused by or resulting from the negligent or intentional act or omission of the Customer, its employees, agents, representatives or invitees; or
- B. any claim, loss, damage, expense or liability for infringement of any copyright, patent, trade secret, or any proprietary or intellectual property right of any third party, arising from any act or omission by the Customer, including, without limitation, use of the Company's services and facilities in a name not contemplated by the agreement between the Customer and the Company.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.3 Obligations of the Customer (Cont'd)

2.3.3 Jurisdictional Nature of Traffic

- A. Customer agrees, represents and warrants that all traffic being delivered by Customer to Company for local termination, and all traffic that Company delivers to Customer that has originated in the same local calling area in which Customer's NXX is assigned and/or in which such traffic is terminated to Customer, is local traffic or is legally entitled to be treated as local traffic under all applicable federal, state and local laws, administrative and regulatory requirements and any other authorities having jurisdiction.
- B. Customer further agrees to indemnify, defend and hold harmless Company and its parent company, affiliates, employees, directors, officers, and agents from and against all claims, demands, actions, causes of actions, damages, liabilities, losses, and expenses (including reasonable attorney's fees) incurred in connection with: Customer's breach or failure of any representation or warranty; Customer's traffic being processed through the Company switch/node; or the effect of any regulatory or legal modifications/change of law.
- C. If Customer defaults in fulfilling any material obligation of the Service Order Agreement, any Amendments or this Tariff, Company shall have the right to terminate the Agreement and the Customer shall pay Company, in addition to any other amounts then owing under the Agreement, a cancellation charge equal to the monthly recurring charge times the number of months remaining in the contract. These charges are intended to establish liquidated damages in the event of early termination and are not intended as a penalty.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.4 Customer Equipment and Channels2.4.1 General

A Customer may transmit or receive information or signals via the facilities of the Company.

2.4.2 Station Equipment

- A. The Customer is responsible for providing and maintaining any terminal equipment on the Customer premises. The electric power consumed by such equipment shall be provided by, and maintained at the expense of, the Customer. All such terminal equipment must be registered with the FCC under 47 C.F.R., Part 68 and all wiring must be installed and maintained in compliance with those regulations. The Company will, where practicable, notify the Customer that temporary discontinuance of the use of a service may be required; however, where prior notice is not practicable, nothing contained herein shall be deemed to impair the Company's right to discontinue forthwith the use of a service temporarily if such action is reasonable under the circumstances. In case of such temporary discontinuance, the Customer will be promptly notified and afforded the opportunity to correct the condition which gave rise to the temporary discontinuance. During such period of temporary discontinuance, credit allowance for service interruptions as set forth in Section 2.6 following is not applicable.
- B. The Customer is responsible for ensuring that Customer-provided equipment connected to Company equipment and facilities is compatible with such equipment and facilities. The magnitude and character of the voltages and currents impressed on Company-provided equipment and wiring by the connection, operation, or maintenance of such equipment and wiring shall be such as not to cause damage to the Company-provided equipment and wiring or injury to the Company's employees or other persons. Any additional protective equipment required to prevent such damage or injury shall be provided by the Company at the Customer's expense.

2.4 Customer Equipment and Channels (Cont'd)

2.4.3 Interconnection of Facilities

- A. Any special interface equipment necessary to achieve compatibility between the facilities and equipment of the Company used for furnishing local exchange service and the channels, facilities, or equipment of others may be provided at the Customer's expense.
- B. Local Service may be connected to the services or facilities of other communications carriers only when authorized by, and in accordance with, the terms and conditions of the tariffs of the other communications carriers which are applicable to such connections.
- C. Facilities furnished under this tariff may be connected to Customer-provided terminal equipment in accordance with the provisions of this tariff.

2.4 Customer Equipment and Channels (Cont'd)

2.4.4 Inspections

- A. Upon reasonable notification to the Customer, and at a reasonable time, the Company may make such tests and inspections as may be necessary to determine that the Customer is complying with the requirements set forth in Section 2.4.2.(B) for the installation, operation, and maintenance of Customer-provided facilities and equipment to Company-owned facilities and equipment. No credit will be allowed for any interruptions occurring during such inspections.
- B. If the protective requirements for Customer-provided equipment are not being complied with, the Company may take such action as it deems necessary to protect its facilities, equipment, and personnel. The Company will notify the Customer promptly if there is any need for further corrective action. Within ten days of receiving this notice the Customer must take this corrective action and notify the Company of the action taken. If the Customer fails to do this, the Company may take whatever additional action is deemed necessary, including the suspension of service, to protect its facilities, equipment and personnel from harm. The Company will, upon request 24 hours in advance, provide the Customer with a statement of technical parameters that the Customer's equipment must meet.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.5 Payment Arrangements2.5.1 Payment for Service

The Customer is responsible for payment of all charges for service and facilities furnished by the Company to the Customer or its Joint or Authorized Users. Objections must be received by the Company within 30 days after statement of account is rendered, or the charges shall be deemed correct and binding upon the Customer. If an entity other than the Company imposes charges on the Company, in addition to its own internal costs, in connection with a service for which a Company Non-Recurring Charge is specified, those charges may be passed on to the Customer.

- A. Taxes: The Customer is responsible for the payment of any sales, use, gross receipts, excise, access or other local, state and federal taxes, charges, user fees, or surcharges (however designated) excluding taxes on the Company's net income imposed on or based upon the provision of Local Exchange Services, all of which shall be separately designated on the Company's invoices. Any taxes imposed by a local jurisdiction (e.g., county and municipal taxes) will only be recovered from those Customers residing in the affected jurisdictions. It shall be the responsibility of the Customer to pay any such taxes that subsequently become applicable retroactively.
- B. A surcharge is imposed on all charges for service originating at addresses in states, counties, and municipalities which levy, or assert a claim of right to levy, a gross receipt or franchise tax on the Company's operations in any such state, county or municipality, or a tax on interstate access charges incurred by the Company for originating access to telephone exchanges in that jurisdiction. This surcharge is based on the particular state's, county's, or municipality's receipts tax or franchise fee and other jurisdiction's taxes imposed directly or indirectly upon the Company by virtue of, and measured by, the gross receipts or revenues of the Company in that jurisdiction and/or payment of interstate access charges in that jurisdiction. The surcharge will be shown as a separate line item on the Customer's monthly invoice.

2.5 Payment Arrangements (Cont'd)

2.5.2 Billing and Collection of Charges

Bills will be rendered monthly to Customer.

- A. All service, installation, monthly Recurring Charges and Non-Recurring Charges are due and payable upon receipt.
- B. The Company shall present bills for Recurring Charges monthly to the Customer, in advance of the month in which service is provided. Usage charges will be billed in arrears.
- C. For new customers or existing customers whose service is disconnected, the charge for the fraction of the month in which service was furnished will be calculated on a pro rata basis. For this purpose, every month is considered to have 30 days.
- D. Any amount not received within the thirty (30) day period will be subject to the Company's standard late charge of 1.5% per month or, if lower, the legal limit applicable to such charges.
- E. Checks with insufficient funds or non-existing accounts will be assessed a penalty fee of \$20.00.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.5 Payment Arrangements (Cont'd)2.5.3 Disputed Bills

The Customer shall notify the Company of any disputed items on a bill within 30 days of receipt of the bill. If the Customer and the Company are unable to resolve the dispute to their mutual satisfaction, the Customer may file a complaint with the Arizona Corporation Commission in accordance with the Commission's rules of procedure.

- A. The date of the dispute shall be the date the Company receives sufficient documentation to enable it to investigate the dispute.
- B. The date of the resolution is the date the Company completes its investigation and notifies the Customer of the disposition of the dispute.

2.5.4 Advance Payments

To safeguard its interests, the Company may require a Customer to make an Advance Payment before services and facilities are furnished. The Advance Payment will not exceed an amount equal to the Non-Recurring Charge (s) and three months' charges for the service or facility. In addition, where special construction is involved, the Advance Payment may also include an amount equal to the estimated Non-Recurring Charges for the special construction and Recurring Charges (if any) for a period to be set between the Company and the Customer. The Advance Payment will be credited to the Customer's initial bill. An Advance Payment may be required in addition to a deposit.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.5 Payment Arrangements (Cont'd)2.5.5 Deposits

- A. Applicants for service or existing Customers whose financial condition is not acceptable to the Company, or is not a matter of general knowledge, may be required at any time to provide the Company a security deposit. All deposits will be handled in accordance with the provisions of the Commission's rules. The deposit requested will be in cash or the equivalent of cash, and will be held as a guarantee for the payment of charges. A deposit does not relieve the Customer of the responsibility for the prompt payment of bills on presentation. The deposit will not exceed an amount equal to:
1. two and one-half (2 ½) month's charges for a service or facility which has a minimum payment period of one month; or
 2. the charges that would apply for the minimum payment period for a service or facility which has a minimum payment period of more than one month; except that the deposit may include an additional amount in event that a termination charge is applicable. In addition, the Company shall be entitled to require such an applicant or Customer to pay all its bills within a specified period of time, and to make such payments in cash or the equivalent of cash. At the Company's option, such deposit may be refunded to the Customer's account at any time. Also, the Company reserves the right to cease accepting and processing Service Orders after it has requested a security deposit and prior to the Customer's compliance with this request.
- B. A deposit may be required in addition to an advance payment.
- C. When a service or facility is discontinued, the amount of a deposit, if any, will be applied to the Customer's account and any credit balance remaining will be refunded. Before the service or facility is discontinued, the Company may, at its option, return the deposit or credit it to the Customer's account.
- D. Deposits held will accrue interest at a rate of 6% or such other rate specified by the Arizona Corporation Commission.

2.5.6 Discontinuance of Service

- A. Upon nonpayment of any amounts owing to the Company, the Company may, by giving requisite prior written notice to the Customer, discontinue or suspend service without incurring any liability.
- B. Upon violation of any of the other material terms or conditions for furnishing service the Company may, by giving 30 days' prior notice in writing to the Customer, discontinue or suspend service without incurring any liability if such violation continues during that period.
- C. Upon condemnation of any material portion of the facilities used by the Company to provide service to a Customer or if a casualty renders all or any material portion of such facilities inoperable beyond feasible repair, the Company, by notice to the Customer, may discontinue or suspend service without incurring any liability.
- D. Upon the Customer's insolvency, assignment for the benefit of creditors, filing for bankruptcy or reorganization, failing to discharge an involuntary petition within the time permitted by law, or abandonment of service, the Company may, with prior notice to the Customer, immediately discontinue or suspend service without incurring any liability.
- E. Upon any governmental prohibition, or required alteration of the services to be provided or any violation of any applicable law or regulation, the Company may immediately discontinue or suspend service without incurring any liability.

2.5.6 Discontinuance of Service (Cont'd)

F. The Company may discontinue the furnishings of any and/or all service(s) which the Company is legally entitled to disconnect, to a Customer, without incurring any liability:

1. Immediately and without notice if the Company deems that such action is necessary to prevent or to protect against fraud or to otherwise protect its personnel, agents, facilities or services. The Company may discontinue service pursuant to this sub-section F.1 (a-f) if:

- a. The Customer refuses to furnish information to the Company regarding the Customer's credit-worthiness, its past or current use of common carrier communications services or its planned use of service(s); or
- b. The Customer provides false information to the Company regarding the Customer's identity, address, credit-worthiness, past or current use of common carrier communications services, or its planned use of the Company's service(s); or
- c. The Customer has been given ten (10) days written notice by the Company of any past due amount (which remains unpaid in whole or in part) for any of the Company's other common carrier communications services to which the Customer either subscribes or had subscribed or used; or

2.5 Payment Arrangements (Cont'd)2.5.6 Discontinuance of Service (Cont'd)F. (cont'd)1. (continued)

- .d The Customer uses, or attempts to use, service with the intent to avoid the payment, either in whole or in part, of the tariffed charges for the service by:
 - i. Using or attempting to use service by rearranging, tampering with, or making connections to the Company's service not authorized by this tariff; or
 - ii. Using tricks, schemes, false or invalid numbers, false credit devices, electronic devices; or
 - iii. Any other fraudulent means or devices; or
 - e. Use of service in such a manner as to interfere with the service of other users; or
 - f. Use of service for unlawful purposes.
- 2. Upon ten (10) days written notice to the Customer, after failure of the Customer to comply with a request made by the Company for security for the payment of service in accordance with Section 2.5.5; or
 - 3. Ten (10) days after sending the Customer written notice of noncompliance with any provision of this tariff if the noncompliance is not corrected within that (10) day period; or
 - 4. Upon five (5) days written notice for non-payment of a bill for service.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.6 Allowances for Interruptions of Service

- 2.6.1 Credit for Interruptions: When the use of service or facilities furnished by the Company is interrupted due to any cause other than the negligence or willful act of the Customer, or the operation or failure of the facilities or equipment provided by the Customer, a pro rata adjustment of the monthly Recurring Charges subject to interruption will be allowed for the service and facilities rendered useless and inoperative by reason of the interruption whenever said interruption continues for a period of 24 hours or more from the time the interruption is reported to or known to exist by the Company, except as otherwise specified in the Company's tariffs. If the Customer reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

For calculating credit allowances, every month is considered to have 30 days. A credit allowance is applied on a pro rata basis against the monthly Recurring Charges specified hereunder for Local Line or Local Trunk Service and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit. Credit allowances for service outages that exceed 24 hours in duration will be rounded up to the next whole 24 hours.

2.6 Allowances for Interruptions of Service, (Cont'd.)2.6.2 Limitations on Allowances

No credit allowance will be made for:

- A. interruptions due to the negligence of, or noncompliance with the provisions of this tariff by, the Customer, Authorized User, Joint-User, or other common carrier providing service connected to the service of Company;
- B. interruptions due to the negligence of any person other than the Company including but not limited to, the Customer or other common carriers connected to the Company's facilities;
- C. interruptions due to the failure or malfunction of non-Company equipment;
- D. interruptions of service during any period in which the Company is not given full and free access to its facilities and equipment for the purpose of investigating and correcting interruptions;
- E. interruptions of service during a period in which the Customer continues to use the service on an impaired basis;
- F. interruptions of service during any period when the Customer has released service to the Company for maintenance purposes or for implementation of a Customer order for a change in service arrangements;
- G. interruption of service due to circumstances or causes beyond the control of the Company.

- 2.6.3 Use of Alternative Service Provided by the Company: Should the Customer elect to use an alternative service provided by the Company during the period that a service is interrupted, the Customer must pay the tariffed rates and charges for the alternative service used.

2.7 Cancellation of Service

2.7.1. Cancellation of Application for Service

- A. Applications for service are non-cancelable unless the Company otherwise agrees. Where the Company permits the Customer to cancel an application for service prior to the start of service or prior to any special construction, no charges will be imposed except for those specified below.
- B. Where, prior to cancellation by the Customer, the Company incurs any expenses in installing the service or in preparing to install the service that it otherwise would not have incurred, a charge equal to the costs the Company incurred, less salvage, shall apply, but in no case shall this charge exceed the sum of the charge for the minimum period of service ordered, including installation charges, and all charges others levy against the Company that would have been chargeable to the Customer had service begun.
- C. The special charges described in 2.7.1.A and 2.7.1.B will be calculated and applied on a case-by-case basis.

SECTION 2 - RULES AND REGULATIONS (CONT'D.)

2.7 Cancellation of Service (Cont'd)2.7.2 Cancellation of Service by the Customer

If a Customer cancels a Service Order or terminates services before the completion of the term for any reason whatsoever other than a service interruption (as defined in 2.6.1 above), Customer agrees to pay to the Company the following sums which shall become due and owing as of the effective date of the cancellation or termination and be payable within the period set forth in 2.5.2: all costs, fees and expenses reasonable incurred in connection with

- A. all Non-Recurring Charges reasonably expended by the Company to establish service to the Customer, plus
- B. any disconnection, early cancellation or termination charges reasonably incurred and paid to third parties by the Company on behalf of the Customer, plus

all Recurring Charges specified in the applicable Service Order or tariff for the balance of the term set forth therein.

2.8 Transfer and Assignments

Neither the Company nor the Customer may assign or transfer its rights or duties in connection with the services and facilities provided by the Company without the written consent of the other party, except that the Company may assign its rights and duties (a) to any subsidiary, parent company or affiliate of the Company; (b) pursuant to any sale or transfer of substantially all the assets of the Company; or (c) pursuant to any financing, merger or reorganization of the Company.

2.9 Notices and Communications

- 2.9.1 The Customer shall designate on the Service Order an address to which the Company shall mail or deliver all notices and other communications, except that Customer may also designate a separate address to which the Company's bills for service shall be mailed.
- 2.9.2 The Company shall designate on the Service Order and address to which the Customer shall mail or deliver all notices and other communications, except that Company may designate a separate address on each bill for service to which the Customer shall mail payment on that bill.
- 2.9.3 All notices or other communications required to be given pursuant to this tariff will be in writing. Notices and other communications of either party, and all bills mailed by the Company, shall be presumed to have been delivered to the other party on the third business day following deposit of the notice, communication or bill with the U.S. Mail or a private delivery service, prepaid and properly addressed, or when actually received or refused by the addressee, whichever occurs first.

The Company or the Customer shall advise the other party of any changes to the addresses designated for notices, other communications or billing, by following the procedures for giving notice set forth herein.

2.10 Satisfaction Guarantee

This offer is available to a New Customer, which is defined as a Customer who has not subscribed to any XO services during the one-year period prior to subscribing to new XO service. Pursuant to this, a New Customer may cancel its new Service, without incurring contractual penalties, within three (3) months of the Service installation if the New Customer is not completely satisfied with the Services provided by XO. (A month is equal to 30 calendar days.) In order to be eligible for this guarantee, a New Customer must not have received telecommunications service from another Service Provider at the location to which the new XO services are provided, or the New Customer must switch back to the Service Provider that provided New Customer's telecommunications service prior to New Customer subscribing to the new XO service.

New Customer must notify XO, in writing (via certified or overnight delivery with signature) with the XO claim form no later than three (3) months from the date of Service installation and before contacting their previous provider, of its intent to discontinue the Services. New Customer must allow XO a minimum of 30 days from the day of New Customer's notice, for the cancellation of the Services, including reconnection to the original Service Provider. After receipt of New Customer's timely notice, XO, in conjunction with the termination of New Customer's Service, will waive any applicable contract termination charges.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 2 - RULES AND REGULATIONS (CONT'D.)**2.10 Satisfaction Guarantee (Cont'd)**

XO will also reimburse the New Customer for any installation charges incurred by New Customer to restore the New Customer to its previous Service Provider at the identical level and type of service provided by the previous Service Provider at the same customer location. In order to receive the reimbursement, the New Customer must, within (3) months of the installation date, provide XO with the following: (1) the XO reimbursement form; (2) copy of the invoice from the other Service Provider; and (3) a copy of the last invoice that the New Customer had received from the other Service Provider prior to switching to XO, if applicable.

If New Customer previously did not have a provider other than XO at the location to which the Services are provided, or if the previous Service Provider will not or cannot provide the identical level and type of service previously provided to New Customer, XO will reimburse New Customer any initial XO installation charges New Customer incurred in conjunction with the installation of Service. All reimbursements will be in the form of a check. Credits will not be given.

XO is not liable for any outage or inconvenience to New Customer relating to restoring the New Customer to its previous Service Provider. The New Customer is responsible to pay XO for all charges for XO new Service provided to the New Customer through and including the date of Service termination prior to receiving reimbursement from XO.

Except as provided below, this promotion is not available to customers receiving non-standard pricing, non-standard products, or non-standard terms and conditions (e.g., individual case basis prices, products, or term and conditions), or customers for whom XO performed Special Construction or Special Configurations. Special Construction is defined in Section 1 of this tariff. Special Configuration refers to the situation in which a customer's service connection is established through a non-standard network architecture design.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES

The following sections will apply to customers who are served by a Central Office where the former XO Arizona, Inc. has facilities and to existing Customers of XO Arizona, Inc. as of February 6, 2005.

Category One - Sections 3.1 thru 3.25

3.1 Local Exchange Service - The Company's Local Telephone Service provides a Customer with the ability to connect to the Company's switching network which enables the Customer to:

- place or receive calls to any calling Station in the local calling area, as defined herein;
- access enhanced 911 Emergency Service where available;
- access the interexchange carrier selected by the Customer for intraLATA, interLATA, interstate or international calling;
- access Operator Services;
- access Directory Assistance;
- place or receive calls to 800 telephone numbers;
- access Telecommunication Relay Service.

The Company's service cannot be used to originate calls to other telephone companies' caller-paid information services (e.g., 900, 976). Calls to those numbers and other numbers used for caller-paid information services will be blocked by the Company's switch.

Service availability and local calling areas are specified below. NXX's associated with each particular exchange or zone may be found in the telephone directory published by the incumbent local exchange provider in the Customer's exchange area.

EXCHANGE AREALocal Calling Area

Phoenix Metropolitan AreaPhoenix Metropolitan Exchange, Agua Fria, Black Canyon, Buckeye, Cave Creek, Circle City, Deer Valley, Fort McDowell, Higley, New River, Paradise Valley, and Superstition

LOCAL EXCHANGE SERVICES TARIFF

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.1 Local Exchange Service (Cont'd)3.1.2 Business Trunks

Business Trunk Service provides customers with access to and from the Public Switched Telephone Network (PSTN) for inbound, outbound or two-way call traffic. The trunk connection can be either analog or digital depending on the customer's requirements.

Analog trunk service is offered via standalone Private Branch Exchange (PBX) or Direct Inward Dial (DID) Trunks, while digital connections are provided through Digital Switched T-1 Service.

In-Only Trunks - A One-Way trunk that only allows traffic from the XO switching equipment to be transmitted to the customer's PBX.

Out Only Trunks - A One-Way Trunk that only allows traffic originating in the customer's PBX to be transmitted to the XO switching equipment.

Two-Way Trunks - A Trunk which allows traffic to be transmitted from either the customer's PBX or the XO switching equipment.

In-Only with DID Trunk - A One-Way trunk equipped with Direct Inward Dialing Service that allows traffic from the XO switching equipment to be transmitted to the customer's PBX.

Direct Inward Dialing (DID) Service - a special trunking arrangement which permits incoming calls from the exchange network to reach a specific PBX station directly without an attendant's assistance.

Fractional T1 Trunks

Basic T1 Facility - A T1 facility that is equipped with In-Only, Out-Only, or Two-Way trunks.

Advanced T1 Facility - A T1 facility that is equipped with In-Only with DID or Two-Way with DID trunks.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.1 Local Exchange Service (Cont'd)3.1.2 Business Trunks (Cont'd)A. PBX Analog Trunks

The PBX Analog Trunk provides a two-wire access loop from the customer premises to the serving central office. The transmission via this loop supports Clear Channel Capability where available. Call traffic in static Channels can be allocated for specific services, such as Two Way Calling, Inbound or Outbound Calling, Direct Inward Dialing (DID), Direct Outward Dialing (DOD), or a combination of DID/DOD.

1. PBX Analog Trunk Rates and Charges:

PBX Analog Trunk Customers will be charged applicable Non-Recurring Charges (NRC'S), Monthly recurring Charges (MRC's) and Usage Charges, as specified below. Additional Federal, State and Local taxes and Surcharges may also apply.

<u>Non-Recurring Charges</u>	<u>Maximum</u>

B. Digital Switched T-1

Digital Switched T-1 service provides an intraexchange digital connection between the customers PBX (Private Branch Exchange) or Hybrid Key system and XO's Central office.

Each Digital Switched T-1 carries 24 channels over a standard digital transmission facility. The channels are used to carry circuit switched voice and data call traffic at channel signal rates of up to 64 Kbps per channel with a total of 1.544 Mbps dedicated bandwidth for each Digital Switched T-1 service. Channels can be allocated for specific services, such as Two Way Calling, Inbound or Outbound Calling, Direct Inward Dialing (DID) or Direct Outward Dialing. Digital Switched T-1 Service and/or its Features are provided subject to the availability and Service Capabilities of the Central Office Facilities. Customer must provide his or her own DTI (Digital Interface) Card. If Customer wishes to provision analog PBX trunk services, Customer must provide compatible digital to analog conversion equipment. All Channel Service Units (CSU's) are the responsibility of the Customer. Digital Switched T-1 service is not available for use by Commercial Mobile Radio Carriers, Private Mobile Radio Carriers or Interexchange Carriers, in the provision of service to their customers.

C. PBX Analog Trunk & Digital Switched T-1 Standard Features

Each PBX Analog Trunk & Digital Switched T-1 includes the following features at no additional charge.

Hunting:

Ascending Trunk Selection - Ascending Trunk Selection occurs when a switching unit selects from a Trunk Group the first available Trunk going from the first trunk of the trunk group, ascending to the last trunk of the Trunk Group. (example: hunting from the 1st trunk through last trunk on Trunk Group)

Descending Trunk Selection - Descending trunk selection occurs when a switching unit selects from a Trunk Group the first available Trunk going from the last trunk of the trunk group, descending to the first trunk of the Trunk Group. (example: hunting from last trunk of Trunk Group toward the 1st trunk of the Trunk Group).

Least Idle Trunk Selection ("LIDL") - LIDL trunk selection occurs when a switching unit selects from a Trunk group the Trunk that has been idle for the shortest period of time.

Most Idle Trunk Selection ("MIDL") - MIDL Trunk selection occurs when a switching unit selects from a Trunk group the Trunk that has been idle for the longest period of time.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.1 Local Exchange Service (Cont'd)3.1.2 Business Trunks (Cont'd)C. PBX Analog Trunk & Digital Switched T-1 Standard Features (Cont'd)

Alternative Call Routing - Allows the customer to route calls to any service within the switch to handle calls in case of a disaster or for call overflow purposes. Typically a customer will route calls from one Trunk Group to another Trunk Group. Calls overflow to the Alternate Call Route when they encounter a busy condition. There are three types of busy conditions:

Overflow Call Processing - all trunks in the trunk group are busy.

System Busy - This busy condition is caused by network system problems, such as T1 Carrier being down or SS7 related problems.

Manual Busy - This condition is caused by the trunk group being manually taken down, typically to do maintenance on the customer side in the PBX or on the telecom side in the network switch.

Additional Features:

E911

One (1) Directory Listing

Touch-tone Capability

D. PBX Analog Trunk & Digital Switched T-1 Optional Features:

Calling Number Delivery - Sends the calling number to the customer.

Directory Assistance and Operator Services are available for an additional per call charge as outlined in Sections 3.10 and 3.11 of this Tariff.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)**3.1 Local Exchange Service (Cont'd)****3.1.3 Deluxe XOPTION Service Offering**

The Deluxe XOption Service Offering is a bundled service that includes XO local exchange, inbound and outbound domestic long distance and DSL or Dedicated Internet Access services provided at the same customer location. Deluxe XOptions also include shared hosting services. This service is available to Business customers and is subject to the availability of facilities and only offered where technically feasible.

Rates indicated below do not include sales, use, gross receipts, excise, access or other local, state and federal taxes, charges, user fees, or surcharges.

Under the Deluxe XOption Service Offering the Customer selects and receives service under one of the Deluxe XOptions listed in the sections below. Each Deluxe XOption includes the Standard Feature Package as defined below, at no additional cost. Additional voice features beyond the Standard Feature Package are available at tariffed rates. The Monthly Recurring Charge for each Deluxe XOption includes the specified amount of monthly minutes of use for local exchange and inbound and outbound domestic long distance service and the Standard Feature Package. The specified monthly minutes of use does not include International usage.

Unused minutes may not be carried over to the following month. Additionally, the Customer must commit to a minimum one-year term agreement for both voice and Internet services in order to be eligible for the Deluxe XOption Service Offering.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.1 Local Exchange Service (Cont'd)3.1.6 IntraLATA Network AccessA. Description of Service

Company IntraLATA Network Access is an IntraLATA service that provides a dedicated transmission path between a customer designated premises and a Company Point of Presence. Where IntraLATA Network Access is available, service is offered as a high capacity dedicated transmission facility available 24-hours per day, 7 days per week in the following bandwidths: DS1 (1.544 Mbps) and DS3 (44.436 Mbps). IntraLATA Network Access is used to provide access services in conjunction with IntraLATA Private Line, DIA and Dedicated Long Distance.

The facilities to the customer-designated premises may be entirely On-Net or Off-Net. Customers may commit to one, two or three year service terms. The minimum service period for IntraLATA Network Access is one year. Should the Customer terminate service prior to the end of the term commitment, the Customer will be billed a termination charge equal to the monthly recurring charge times the number of months remaining in the term.

B. Rates and Charges

Rates and charges for IntraLATA Network Access service are defined herein and are based on the location(s) of the customer designated premise(s) in relation to Company's network. Specifically, Customers will be charged according to whether the customer designated premises are On-Net or Off-Net. As used herein, On-Net service shall mean service to the Customer designated premises is provided entirely over Company facilities. Off-Net service shall mean service to the Customer designated premises is not provided entirely over Company facilities. Instead, service to the Customer designated premises is provided by Company, in whole or in part, through the use, purchase or lease of the facilities from a service provider other than Company.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.1. Local Exchange Service (Cont'd)3.1.6 IntraLATA Network Access (Cont'd)C. Rates and Charges (Cont'd)

1. Rate Elements: Two rate elements apply to IntraLATA Network Access: Channel Termination and Network Access Mileage.

- a. Channel Termination

The Channel Termination rate element provides for the dedicated transmission path between a customer designated premise and Company's Point of Presence. One Channel Termination charge applies per each customer point of termination. A Channel Termination charge applies when the customer designated premises and the serving wire center are collocated in the same building.

- b. Network Access Mileage

The Network Access Mileage rate element provides for the dedicated transmission facilities path between the customer's serving wire centers associated with the customer designated premise and the Company's Point of Presence. The Network Access Mileage rate element is made up of two monthly recurring charges: a flat rate per circuit ("Fixed") and a flat per-mile rate ("Variable").

The Network Access Mileage rate element will be rounded up to the next mile for any fraction of a mile. For example, 0.001 miles will be charged at 1 mile. If both locations of Customer's designated premises are within the same central office, Network Access Mileage charges will not apply.

3.1 Local Exchange Service (Cont'd)3.1.8 Local Volume Discount

National Local is a discount plan based upon XO's currently offered Local Services. Two plans are available, as outlined below. Customer must choose one plan upon execution of their service agreement.

A. Restrictions:

The offer is available to New and Existing Customers who sign a minimum two (2) year commitment for XO Local service offerings.

1. The following Services are not included in the discount, but are included in the revenue commitment: XOptions, ISDN-BRI, Inbound PRI, Integrated Access, Gateway traffic, Residential Service, Operator Services, Resold Services, Carrier Local Term, DAL IntraLATA usage, Labor and Non-Recurring Charges. All other products and usage types are included in the revenue commitment.
2. This offer applies only to those other Local products currently available.
3. Customers located in an area where the Company is collocated in the ILEC wire center serving the Customer are eligible for this offering. Other Customers may be eligible depending upon their service configuration.
4. All other commitments and/or restrictions, including early termination fees, associated with the applicable local product(s) apply.

B. Private Branch Exchange (PBX) Trunks

1. Service Description:

PBX Trunk Service provides customers with access to and from the Public Switched Telephone Network (PSTN) for inbound, outbound or two-way call traffic.

Two-Way Trunks - A Trunk which allows traffic to be transmitted from either the customer's PBX or the Company switching equipment.

One-Way, out only - A One-Way Trunk that only allows traffic originating in the customer's PBX to be transmitted to the Company switching equipment.

One-Way, in only - A One-Way Trunk that only allows traffic from the Company switching equipment to be transmitted to the customer's PBX.

Direct Inward Dialing (DID) Service - A special trunking arrangement which permits incoming calls from the exchange network to reach a specific PBX station directly without an attendant's assistance.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.4 Centrex Service

3.4.1 Definitions

Abbreviated Dialing - Allows Centrex station users to dial fewer digits to reach other station users in a designated business group.

Busy Override - Allows a Centrex station user to interrupt another station that has a call in progress. Parties already on the line will hear a tone and then the outside party will join the call.

Call Forwarding Busy - Automatically routes incoming calls to a designated point when the called line is busy.

Call Forwarding No Answer - Automatically routes incoming calls to a designated answering point when the called line does not answer within a pre-specified number of rings.

Call Forwarding Variable - Automatically routes incoming calls to a designated answering point regardless of whether the called Centrex station is idle or busy.

Call Hold - Allows the Centrex station user to hold a call for any length of time provided that neither party goes off-hook.

Call Park - Allows a Centrex station user to "park" a call at the Centrex station and "unpark" the call from any Centrex station in a Centrex group.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.4 Centrex Service (Cont'd)3.4.1 Definitions (Cont'd)

Call Pickup - Allows a Centrex station user to answer incoming calls to another Centrex station within a defined call pickup group. Call Pickup is provided as either Group Call Pickup, where pre-designated groups can pickup each others calls by activating an access code or a feature key, or Directed Call Pickup, where any call can be retrieved by dialing a different access code followed by the extension number.

Call Transfer - Allows a Centrex station user to transfer any call to another telephone number and then be free to accept another call.

Call Waiting - Notifies the Centrex station use with tone to indicate that another call is incoming. The second call can either be answered by flashing the switch hook or hanging up the phone and being rung back by the caller.

Call Waiting Cancel - Allows a Centrex station user to cancel the Call Waiting feature on a per call basis by dialing a specific two-digit code.

Caller ID - Identifies the 10-digit number of the calling party on the Centrex station handset.

Caller ID Blocking - This feature automatically blocks the telephone number for calls originating on the Centrex system. The Centrex station user can selectively unblock calls on a per call basis by dialing a two-digit code before dialing.

Digital Centrex - a Centrex line that utilizes digital transmission instead of analog transmission. Digital Centrex features and services are only offered and available on proprietary Northern Telecom telephone equipment.

Direct Inward Dialing (DID) - A service attribute that routes incoming calls directly to a Centrex station, bypassing a central answering point.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.4 Centrex Services (Cont'd)

3.4.1 Definitions (Cont'd)

Direct Outward Dialing (DOD) - Allows a Centrex station to gain access to the public network without attendant assistance.

Directed Call Pickup - see Call Pickup

Distinctive Ringing - Creates different ring patterns to help distinguish where the call originated. Two distinct rings are heard, one for internal, within the Centrex group, versus another for external calls.

Hot Line - This feature automatically connects a Centrex station user to a pre-designated number when the user picks up station handset.

Hunting - Routes a call to an idle Centrex station line. With Serial Hunting, calls to a member of a hunt group will search from that point to the end of the group and stop.

Last Number Redial - Allows a Centrex station user to redial the previous number dialed with a few keystrokes.

Multiple Appearance Directory Number (MADN) - A directory number that is assigned to more than one business set that can be arranged in either a single-call arrangement (SCA) or a multiple-call arrangement (MCA). SCA allows only one set in the MADN group to originate or terminate a call on the MADN at one time; MCA allows any number of the sets in the MADN group to be active on the MADN simultaneously.

3.4 Centrex Service (Cont'd)3.4.1 Definitions (Cont'd)

Message Light Indicator - This feature provides an indication to a Centrex station user that a message is waiting. Indications may be visual (lamp) or audible (stuttered dial tone).

Music On Hold - Allows callers to hear music when placed on Call Hold at a Centrex station. The Company will be the source of the music and does not allow for customer preference.

Night Service - Allows Centrex station users to forward after business hours calls to a pre-designated telephone number.

Remote Access to Call Forwarding - Allows a remote caller access to the features of the Centrex system by dialing a facility number and an access code to activate, change or deactivate the call forwarding service from any location.

Service Restrictions - Allows a Centrex station user to specify access to 900/976 numbers, provide for internal calling only, restrict toll access or international, and/or LIDB restrictions.

Six-Way Conferencing - Allows a Centrex station user to sequentially conference five other people on a single call.

Speed Call Long List - Provides a Centrex station user with the option to call selected directory numbers by dialing a one or two-digit code.

Stutter Dial Tone - Allows Centrex users with voicemail to hear a special dialtone when a message has been recorded in the voicemail box.

Three-Way Calling - Allows a Centrex station user to conference two other callers at one time.

Uniform Call Distribution - Directs incoming calls evenly to a designated group of Centrex Station users.

3.4 Centrex Service (Cont'd)

- 3.4.2 Centrex is a business telephone system that is offered from the local Company central office. Centrex is a service that delivers a set of PBX-like features to individual desks with all lines linked in the Central Office to provide internal communications as well as access to the Public Switched Telephone Network (PSTN). Centrex Customers will be charged a Non-Recurring Charge, a Monthly Recurring Charge and Usage charges as specified in Section 3.4.4 of this Tariff, as well as all applicable Federal, State and Local Taxes and Surcharges.

Centrex includes the following standard attributes at no cost:

Touchtone
One White Pages Directory Listing
One Yellow Pages Directory Listing
911 Access
Caller ID Blocking- Per Call

Blocking Restrictions - Centrex service comes standard with all Caller Paid Service, 500 and 900 area codes blocked. The additional blocking options listed below are available upon request for no additional charge. Option group B constitutes the default Blocking Option.

Option A	No blocking
Option B	Block 976-like, 500, 976, 900 area codes
Option C	Block 976-like, 500, 976, 900, 01, 011 codes
Option D	Block 976-like, 500, 976, 900, 01, 011, DA

LOCAL EXCHANGE SERVICES TARIFF

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)**3.5 Integrated Services Digital Network (ISDN) Primary Rate Interface (PRI) Service**

Integrated Services Digital Network (ISDN) Primary Rate Interface (PRI) is furnished for the digital transmission of information at 64Kbps between the Company's serving wire center and ISDN-compatible terminal equipment located at the customer's premises or other service point. The service consists of a minimum of 23 B (bearer channels) and 1 D (data channel) to provide the Customer with the capabilities of simultaneous access transmission and switching of voice and data services over channelized transport. In addition, ISDN PRI provides the customer with service capabilities and features described in this tariff.

3.5.1 Conditions: This service is offered subject to the following conditions:

- A. PRI is only available from a serving central office (CO) equipped with the necessary facilities to provide PRI service. Feature availability and service capabilities are dependent on the facilities and digital technology providing the service.
- B. ISDN compatible terminal equipment is required for operation. It is customer's responsibility to power and obtain such equipment.
- C. PRI service does not preclude customer from originating or receiving circuit-switched voice calls from inside or outside either their serving CO or their Local Exchange Area. Where facilities are available, customers will be able to originate and receive circuit-switched data calls outside of their serving CO.
- D. PRI service does not provide for the transmission of packet data.
- E. Local and long distance usage is not included in the Monthly Recurring Charge (MRC) or Non-recurring Charge (NRC) and is billed at the applicable tariffed rates.
- F. All PRI Service must have at least one 23 B, plus 1 D PRI arrangement for signaling and control functions. A 23 B plus Back-up D PRI arrangement is required whenever more than 47 B Channels are controlled by a single D channel.
- G. Each PRI is equipped with one telephone number. For Direct Inward Dial (DID) service, additional telephone numbers may be ordered in blocks of 20 or 100 depending on customer location.
- H. Clear Channel is available when all Carrier Equipment and customer equipment signaling is set to B8ZS. (See Service Components for definition.)

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.5 Integrated Services Digital Network (ISDN) Primary Rate Interface (PRI) Service (Cont'd)

3.5.2 Service Components: The following Service Components are included in the MRC when ordering ISDN PRI:

- A. Primary Rate Access Line: Provides a four-wire access loop from the customer premise to the serving CO. The transmission via this loop supports Clear Channel Capability.
- B. Primary Rate Interface: Provides the multiplexing to support up to 23 B Channels at 64 Kbps and 1 D Channel for signaling at 64 Kbps. With Non-Facilities Associated Signaling, the primary rate interface can provide up to 24 B Channels at 64 Kbps.
- C. Primary Rate Channels: Provides unlimited usage of the channel that will transport voice or data up to 64 Kbps over any B Channel.
 - 1. Voice Calls may be completed to both ISDN and non-ISDN lines.
 - 2. Data Transmission on the B Channels will be circuit-switched at 64 Kbps within the switch and between compatible CO's. ISDN interconnection to non-ISDN equipped CO's may be potentially subjected to analog transmission or sub-rated to 56 Kbps.
 - 3. B Channels can be allocated for specific services, such as DID, Direct Outward Dialing (DOD), Two-Way Trunk, Dedicated Inbound and Outbound Long Distance, or customer can optionally configure channels to access multiple services on a per-call basis.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.5 Integrated Services Digital Network (ISDN) Primary Rate Interface (PRI) Service (Cont'd)

3.5.3 Primary Rate Channel Configurations: Customers may order any one of the following three service configurations when ordering ISDN. However, the first PRI Access Line purchased must be the Standard Channel Configuration. A customer requiring additional ISDN PRI Access Lines may choose the 24 B channels with Non Facilities Associated Signaling or 23B with a Backup D Channel configuration.

1. Standard Channel Configuration - Provides 23 B Channels at 64 Kbps and 1 primary D Channel at 64 Kbps. The B channels carry digitized customer traffic, voice and/or data. The primary D Channel is out of band signaling used to control and route all B Channel traffic on a single ISDN PRI service arrangement.
2. Full Channel Configuration - Provides additional 24 B Channels at 64 Kbps. Only available in conjunction with a Standard Channel Configuration.
3. Backup Channel Configuration - Provides additional 23 B Channels at 64 Kbps and 1 Backup D Channel at 64 Kbps. The Backup D Channel controls and routes all the B channel traffic of a single ISDN PRI service arrangement should the primary D Channel go out of service. This option is only available in conjunction with a Standard service configuration.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)**3.5 Integrated Services Digital Network (ISDN) Primary Rate Interface (PRI) Service (Cont'd)**

3.5.4 Standard Service Features: The following Standard Service Features are included in the MRC when ordering any one of the Primary Rate Channel Configurations, unless otherwise stated. Additional features and services are available to customer at the applicable rates found in this tariff.

A. Call-by-Call Service: Provides an option to the Dedicated B Channel Configuration allowing B channels to be configured to:

1. Access multiple services on a per-call basis. Separate facilities are not needed for individual services such as DID, DOD, dedicated inbound and outbound long distance, and dial tone lines.
2. Access the circuit-switched voice and data services to share B channels and arrange them as a single trunk group. Allows incoming and outgoing circuit-switched voice and data calls to utilize B channels on a call by call basis.
3. Allow Customer to subscribe to more services than channels. The CPE signals the local CO to which type of service to access for each call; inbound/outbound trunk or dedicated long distance service.

B. Calling Line Identification Delivery (CLID): Customer receives the originating telephone number provided the information is forwarded by caller's Local Exchange and/or Long Distance Carrier. Incoming call identification is provided via the D channel associated with the incoming calls on a B channel to a PBX.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.5 Integrated Services Digital Network (ISDN) Primary Rate Interface (PRI) Service (Cont'd)3.5.4 Standard Service Features (Cont'd)

- C. Calling Line Identification Delivery Blocking - Customer's telephone number(s) will not be forwarded to the called party.
- D. Clear Channel Capability - Clear Channel is only available where technically feasible. The B Channels on ISDN PRI are clear. All signaling and control functions are handled by the D Channel allowing 64Kbps on each channel to be used for customer information.
- E. Non-Facility Control Signaling (NFAS) - Provides capability for a single D Channel to provide signaling and control for one or more ISDN PRI line, up to a maximum of five. Following the 23B+D Channel, the 24th Channel on the subsequent ISDN PRI line is made available for customer use. When purchasing more than three ISDN PRI lines, a backup D Channel is recommended.
- F. D Channel Backup - Provides backup for the primary D channel for a customer with multiple PRI lines by automatically switching signaling capability over to another D channel if service to the primary D channel is interrupted.
- G. Digital voice Transmission - All voice calls are transmitted using digital signaling.
- H. Direct Inward Dial (DID) Signaling - Permits incoming dialed calls from the exchange network to reach a specific number served by the CPE without the assistance of an attendant. Provides call identification based on digits set to the CPE by the CO.
- I. PBX Station ID Capability - Permits the station users number (calling party) to be transmitted over the ISDN PRI D channel from DID equipped CPE PBX's that use ISDN PRI. Number is provided by the originating station and must have an associated DID telephone number working in the CO.
- J. Network Ring Again - Permits a calling station encountering a busy to notify the CO switch to signal the calling station when the called station becomes idle. The calling station then notifies the switch to complete the call. Enables the customer to complete calls to a busy station without continuous redialing. Certain equipment restrictions may apply.
- K. Message Waiting Indication - Allows Utility network to pass Message Waiting Indication information between multiple entities within a PRI network serving arrangement. Requires suitably equipped ISDN switching and terminal equipment.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.6 Inbound PRI

Inbound PRI is a high inbound only Primary Rate Interface ISDN service. This service is available to Internet Service Providers and Application Service Providers. Inbound PRI is a DS-1 level service that provides trunk-side access from a customer's premise to the local XO central office. Service will be delivered to the customer premise on a digital basis only. The customer may elect to convert the digital signal to analog using customer provided channel banks at their own discretion, but XO will not provide this as part of the service.

Inbound PRI is a dedicated inbound-only service that cannot be used to originate or terminate domestic long distance switched calls and is designed to support high inbound call volumes. Rates are offered under two pricing plans described in Section 3.5.A.1 below. Pricing is based on whether the Customer service location is On-Net or Off-Net. For purposes of this offering, On-Net service shall mean service to the Customer service location is provided entirely by XO over its own fiber or wireless facilities, or when Customer is collocated with XO. Off-Net service shall mean service to the Customer service location is not provided entirely by XO over its own fiber or wireless facilities. Instead, service to the Customer service location is provided through the use, purchase or lease of the facilities of another local access provider other than XO, including the use of unbundled network elements or Type II facilities. A minimum one-year term commitment is required with this service offering.

Customer and XO, agree that in the event of a decision by a regulatory authority at the federal, state or local level, including but not limited to the approval of a new ILEC interconnection arrangement, which alters XO's ability to offer the current contract rate, upon 30 days written notification to Customer, XO may migrate the Customer to the Off-Net Price Plan for remainder of Customer's term commitment. If XO chooses to migrate customer to an Off-Net Price Plan for the remainder of Customer's term commitment, Customer may cancel service without penalty upon 30 days written notice to XO after receipt of the XO migration notice.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.6 Inbound PRI (Cont'd)3.6.2 Discount Schedule

Customers are eligible for discounts based on revenue levels as shown below. The monthly revenue level is Customer's total monthly telecommunications expenses provided to Company for all services excluding taxes and surcharges, non-recurring charges, some hosting services and equipment and DIA usage. The discount will be applied monthly in the form of a credit off the bottom line of the Customer's bill. The amount of the discount may vary month to month.

Discount Schedule based on monthly usage:

<u>Monthly Usage Level</u>	<u>Discount Percentage</u>
\$0 - 5,000	0%
\$5,000.01 - 25,000	10%
\$25,000.01 - 100,000	15%
\$100,000.01 - 300,000	20%
\$300,000.01+	25%

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.7 COCOT (Payphone) Line Service

COCOT lines support the provisioning of voice grade service for payphone service providers in the Company's service territory.

3.7.1	<u>Rates and Charges</u>	<u>Maximum</u>
A.	<u>Non-recurring</u> , per each line or trunk	\$ 90.00
B.	<u>Monthly Recurring Charge</u>	\$ 65.00

3.7.2 Public Pay Telephone Surcharge

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. The Public Pay Telephone Surcharge, which is in addition to standard tarified usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any re-originated call (i.e., using the "#" symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

	<u>Maximum</u>
Rate per Call	\$0.30

3.10 Directory Assistance (Cont'd)3.10.2 Call Completion Feature

Customers using Company's Directory Assistance Service will have the option of completing calls through Company's Call Completion feature. At the Customer's request, the Directory Assistance Operator will connect the Customer to the requested telephone number. In addition to the per call charge for Directory Assistance listed above, Customers will be charged for duration of the completed call as follows:

Customers placing the call from a telephone line that is subscribed to Company local service will be charged according to Customer's current company rate plan.

Customers placing a call from a telephone line that is subscribed to Company long distance service only will be charged at the rate listed below per minute for the duration of the completed call.

	<u>Maximum</u>
Call Completion Feature	\$1.00

Other than the Directory Assistance per call charge and the applicable usage charges for the completed call, there is no additional charge for using this feature.

3.10.3 A credit will be given for calls to Directory Assistance as follows:

- * The Customer experiences poor transmission or is cut-off during the call; or
- * The Customer is given an incorrect telephone number.

To obtain such a credit, the Customer must notify its Customer Service representative within 48 hours of placing the call to Directory Assistance.

3.11 Operator Assistance

A Customer may obtain the assistance of a local operator to complete local exchange telephone calls in the following manner. Surcharges as specified in Section 3.9.1 will apply:

Third Number Billing - Provides the Customer with the capability to charge a local call to a third number which is different from the called or calling party. The party answering at the third number has the option to refuse acceptance of the charges in advance or when queried by the operator.

Collect Calls - Provides the Customer with the capability to charge a call to the called party. On the operator announcement of a collect call, the called party has the option to refuse acceptance of charges in advance or when queried by the operator.

Calling Cards - Provides the Customer with the capability to place a call using a calling card with or without the assistance of an operator.

Person to Person - Calls completed with the assistance of an operator to a particular Station and person specified by the caller. The call may be billed to the called party.

Station to Station - Calls completed with the assistance of an operator to a particular Station. The call may be billed to the called party.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.12 Directory Listings

The Company shall arrange for the listing of the Customer's main billing telephone number in the directory(ies) published by the dominant Local Exchange Carrier in the service area at no additional charge. At a Customer's option, the Company will arrange for other types of listing and additional listings and will pass onto the Customer the charges, if any, for such listings that the dominant Local Exchange Carrier charges Company. Listings will be non-published at the specific request of the Customer.

3.12.1 The Company reserves the right to limit the length of any listing in the directory by the use of abbreviations when, in its judgment, the clearness of the listing or the identification of the Customer is not impaired thereby. When more than one line is required to properly list the Customer, no additional charge is made.

3.12.2 The Company may refuse a listing which is known not to constitute a legally authorized or adopted name, contains obscenities in the name, or any listing which, in the opinion of the Company, is likely to mislead or deceive calling persons as to the identity of the listed party, or is a contrived name used for advertising purposes or to secure a preferential position in the directory or is more elaborate than is reasonably necessary to identify the listed party. The Company, upon notification to the Customer, will withdraw any listing which is found to be in violation of its rules with respect thereto.

3.12.3 Each listing must be designated Government, Business, or Residence to be placed in the appropriate section of the directory. In order to aid the user of the directory, and to avoid misleading or deceiving the calling party as to the identity of the listed party, only business listings may be placed in the Business Section and only residential listings in the Residential Section. The Company, upon notification to the Customer, will withdraw any listing which is found to be in violation of its rules with respect thereto.

3.12 Directory Listings (Cont'd)

3.12.4 In order for listing to appear in an upcoming directory, the Customer must furnish the listing to the Company in time to meet the directory publishing schedule.

3.12.5 Directory listings are provided in connection with each Customer service as specified herein.

A. Primary Listing: A primary listing contains the name of the Customer, or the name under which a business is regularly conducted, as well as the address and telephone number of the Customer. This listing is provided at no additional charge.

B. Additional Listings: In connection with local exchange service, additional listings are available only in the name of Authorized Users of the Customer's service, as defined herein. Rates for additional listings are specified in Section 3.12.

C. Nonpublished Listings: Listings that are not printed in directories nor available from Directory Assistance.

A Nonpublished Telephone Service will be furnished, at the Customer's request providing the omission or deletion of the Customer's telephone listing from the telephone directory and, in addition, the Customer's telephone listing will be omitted or deleted from the directory assistance records, subject to the provisions set forth in Section 2.1.4. Rates for Nonpublished Listings are specified in Sections 3.12.5.

D. Nonlisted Numbers: A Nonlisted number will be furnished at the Customer's request, providing for the omission or deletion of the Customer's listing from the telephone directory. Such listings will be carried in the Company's directory assistance and other records will be given to any calling party. Rates for Nonlisted Numbers are specified in Sections 3.12.5.

E. Foreign Listings: Where available, a listing in a phone directory which is not in the Customer's immediate calling area. The Customer will be charged the rates specified in the tariff published by the specific exchange carrier providing the Foreign Listings.

3.13 Intercept and Number Referral Service3.13.1 Intercept

Is an optional service employed after telephone service has been disconnected, whereby an automated system repeats the called number and provides the status of the telephone service. Intercept Service is available for published numbers and DIDs free of charge for the first 90 days of use. Intercept Service for published numbers in place longer than 90 days will be charged as outlined below. Intercept Service for unpublished numbers will be charged as outlined below from the start of the Number Referral Service.

3.13.2 Number Referral Service

Is an optional service employed after telephone service has been disconnected, whereby an automated system repeats the called number and provides callers with the new number. Number Referral Service is available for published numbers free of charge for the first 90 days of use. Number Referral Service for published numbers in place longer than 90 days will be charged as outlined below. Number Referral Service for unpublished numbers will be charged as outlined below from the start of the Number Referral Service.

3.15 911 Regulations

3.15.1 Definitions

911 Customer - A municipality, state or local governmental unit or an authorized agent of one or more of these units to whom authority has been lawfully delegated. The 911 customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to emergency calls.

Called Party Hold (CPH) - A feature of 911 Service that enables a PSAP attendant to retain control of an incoming 911 call connection even if the calling party hangs up.

Forced Disconnect - A feature that allows the PSAP attendant to release a connection regardless of the action of the calling party. This prevents blockage of the incoming 911 lines serving the PSAP.

Meet Point - A predetermined point in the provision of a circuit between two or more operating companies, i.e. where the Company provides a portion of the facilities to a point and another telephone company continues the facilities in order to provide end-to-end service to a 911 customer.

Originating End Office - A central office that serves the caller originating a 911 call.

3.15 911 Regulations (Cont'd)3.15.2 Conditions

- A. The 911 customer may be a municipality or other state or local government unit or an authorized agent of one or more of these units. The 911 customer must be legally authorized to subscribe to the services and respond to public emergency calls from the central office service areas arranged for 911 calling.
- B. 911 are the only digits which may be used as an abbreviated emergency telephone number.
- C. The service is furnished to the 911 customer for the purpose of receiving reports of a public safety nature from the public.
- D. 911 Service will not be suspended or disconnected for nonpayment without a ninety day written notification to the 911 customer and the Company.
- E. The Company does not answer and forward 911 calls but furnishes the use of its facilities to enable the 911 customer's personnel to respond to such calls.
- F. The Company shall not be responsible for providing 911 Service to less than an entire central office.
- G. The rates charged for 911 Transport Service includes normal Public Switched Telephone Network monitoring of facilities to discover errors, defects, and malfunctions in the network, but do not include any additional monitoring. If available, at the request of the 911 customer the Company will provide additional inspection and monitoring of facilities for an additional charge. The 911 customer and the Company shall promptly notify each other in the event the system is not functioning properly.
- H. In any central office where 911 Service or PS/ALI has been activated the Company will provide the same level of reliability and quality as it provides for all other telephone services in that central office.
- I. The 911 customer will make arrangements to relay or transfer all 911 calls that originate from telephones served by central offices in the 911 Service Area whether or not the calling telephone is situated on property within the geographical boundaries of the 911 customer's public safety jurisdiction. The Company will provide the 911 customer with central office boundaries.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.15 911 Regulations (Cont'd)

- 3.15.3 Private Switch / Automatic Location Identification (PS/ALI)- PS/ALI is a service offering which allows a private telephone switch, Private Branch Exchange (PBX), or other telephone service switch, located on the customer premises, to send Automatic Number Identification (ANI) information, identifying the individual station line to a 911 system. PS/ALI is also available via Centrex and ISDN-PRI.

The PS/ALI system enables the Customer to interface with a third party vendor's (Vendor), software, which updates a E911 database. Through the interface, the customer is able to enter and update the specific address and location of each extension. Communication between the Customer's computer system running PS/ALI and the Vendor is initiated by the Customer and occurs through the Internet.

A. Restrictions:

Customer must sign a minimum one (1) year term contract.

The PS/ALI customer must subscribe to Company Local Service from the PBX/Centrex/ISDN-PRI that they are requesting a PS/ALI license.

PS/ALI is not sold as a stand-alone product. Should the Customer terminate Local Service, PS/ALI shall also be cancelled

PS/ALI is subject to early termination penalties.

B. Customer provided equipment:

Pentium Class Personal Computer (PC)

Microsoft Windows 95/98/NT

16 MB RAM memory

Over 16 MB free hard drive space

28.8 kbps (or higher) modem

Super VGA monitor (800 X 600 pixel, 256 -color display driver)

3.16 Telecommunications Relay Service

Telecommunications Relay Service enables deaf, hard-of-hearing or speech-impaired persons who use a text telephone or similar devices to communicate freely with the hearing population for using the text telephone and vice versa. The Company does not impose any charge to end users for access to Telecommunications Relay Service. However, persons using this Service are liable for applicable per call/increment charges.

3.17 Presubscription

Provides Customers with the ability to have message toll or long distance calls routed directly to their carrier of choice without the dialing of any additional digits. Customers may select separate carriers for intraLATA and interLATA calls.

3.18 Individual Case Basis (ICB) Arrangements

Arrangements will be developed on a case-by-case basis in response to a bona fide request from a Customer or prospective Customer to develop a competitive bid for a service offered under this tariff. Rates quoted in response to such competitive requests may be different than those specified for such service in this tariff. ICB rates will be offered to the Customer in writing and on a non-discriminatory basis and will be filed with the Arizona Corporation Commission.

3.19 Arizona Universal Service Fund (AUSF)

The surcharge set forth below relates to funding the AUSF and is in addition to the rates and charges for local service as set forth in this tariff.

AUSF surcharge applied to each access line on a monthly basis

3.23 XO Premium Integrated Access Service

XO Premium Integrated Access Service is a bundled service offering that requires the Customer to purchase, at the same customer location, local exchange service, message toll service and Internet services from the Company. The standard configuration involves having a single DS-1 to the Customer's premises. Service can also be provided via ISDN PRI. When ordering service via DS-1, the Customer must purchase a minimum of six (6) local exchange lines or trunks and utilize a total of at least fourteen (14) voice & data channels. The Customer must also enter into a one (1), two (2) or three (3) year service order agreement. Usage for all services is not included in the following rates. The Non-Recurring and Monthly Recurring charges are specified below. MRC's listed below are for one (1) year term contracts, two and three year contracts receive an additional 5% and 10% discount, respectively.

3.23.1 Standard & Optional Features

XO Premium Integrated Access Service Customers using Basic Business Lines will receive Touchtone as a Standard feature and may request the following optional features at no additional charge: Call Forward Variable, Call Forward Busy, Call Forward No Answer, Speed Calling, Call Waiting, and 3 Way Calling.

3.23.2 Non-Recurring Charges

For initial installation of XO Premium Integrated Access Service over a single DS-1 or ISDN PRI, Customers will pay a non-recurring installation charge specified below. Installation charges for those Customers that purchase more than a DS-1 worth of capacity will be done on an Individual Case Basis (ICB). If a customer chooses to add additional local exchange lines or channels after installation of the initial service, the Company's regular non-recurring installation charges for local exchange service, as specified in 3.1 will apply. An additional Service Order charge will apply for Features added subsequent to the initial service order.

	<u>Maximum</u>
Single DS1 or ISDN PRI:	\$4,000.00
Capacity Exceeding DS1 or ISDN PRI:	ICB

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.24 Commercial Private Line Services

Commercial Private Line Service (CPL) is an IntraLATA service that provides a dedicated digital transmission path between two customer-designated premises for data applications. Where dedicated CPL is available, the service is offered as a high capacity dedicated transmission facility available 24-hours per day, 7 days per week in the following bandwidths: DS1 (1.544 Mbps) for transmission of isochroous serial digital data at a rate of 1.544 Mbps; or, DS3 (44.436 Mbps) for transmission of isochroous serial digital data at a bit rate of 44.436 Mbps.

The facilities to the customer designated premises may be entirely On-Net, Off-Net or a combination thereof. Customers may commit to one, two or three year service terms. The minimum services period for CPL is one year. Should the Customer terminate service prior to the end of the term commitment, the Customer will be billed a termination charge equal to the monthly recurring charge times the number of months remaining in the term.

3.24.1 Terms and Conditions

- A. The customer or customer's authorized agent is responsible for the procurement of associated customer premise equipment (CPE) and will ensure compatibility with the transmission facility used on both ends of the CPL service.
- B. Should any change in inside wiring (including riser cable) not owned by the Company, or CPE, require the Company to redesign CPL service, the customer shall reimburse the Company for all costs incurred by the Company in making such a change. Should CPL service fail due to inside wiring (including riser cable) not owned by the Company, CPE, or power failure, the responsibility for failure shall be solely that of the customer and the Company shall have no liability of any kind.
- C. The customer is responsible for placement, installation, operation, maintenance, repair and replacement of all inside wire (including riser cable), not owned by the Company, and CPE that the customer uses in connection with this service. Premises wiring and CPE must be compatible with the Company's provision of CPL service.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)**3.24 Commercial Private Line Services (Cont'd)****3.24.1 Terms and Conditions (Cont'd)**

- D. If a CPL service interruption, disconnection, error, performance failure, or some out-of-service condition occurs which is caused by the failure of any component furnished by the Company under this price list, the Company may apply a credit as specified herein.
- E. The customer must give 30 days written notice of termination. Early termination charges will apply if a service is terminated in whole or in part by the customer, or is terminated for cause by the Company.
- F. If a customer terminates service prior to the installation date, customer shall pay termination charges including but not limited to: all engineering, planning, preparation, materials, supplies, placement, facilities, acquisition, transportation, installation, construction, and labor costs and charges incurred by the Company.
 - 1. If a customer terminates service after the date of installation but prior to the expiration of the contract, termination charges will apply as specified in the Cancellation of Service set forth in Section 2.7.
 - 2. The Company and any customer who agrees to accept service will enter into a written agreement which terms and conditions will be consistent with this Tariff.
- G. Order Cancellation
 - 1. When an application or request for service is canceled in whole or in part before service is established, the customer is required, on demand, to reimburse the Company for all expenses incurred in connection with the application for service and the installation of the required equipment and facilities before notice of cancellation is received. Such charges are not to exceed the installation, construction and termination charges otherwise applicable if the service had been established.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.24 Commercial Private Line Services (Cont'd)3.24.2 General Availability

The furnishing of CPL service under this tariff is subject to the availability on a continuing basis of all facilities necessary to provide the service. Services will be provided using the Company's fiber optic and other facilities as well as facilities the Company may obtain from other carriers.

3.24.3 Protection of the Network

- A. The Company has the right and option to check the output of any equipment used in the transmission of signals, to or from the customer premises, for CPL service. This includes Company-provided facilities or other companies' facilities used in connection with the provision of CPL capabilities, such as customer-provided equipment.
- B. The Company will notify the customer of any deviation from the authorized transmissions or specifications established in provision of the service.
- C. Upon notification by the Company that unauthorized transmissions are present due to customer equipment or facilities, the customer or customer's authorized agent will correct the situation on an expeditious basis or service will be disconnected by the Company to protect the network. The Company shall not be liable for and disclaims liability for losses which might be incurred as a result of disconnecting the service and disclaims any and all implied warranties, including, without limitation, warranties of merchantability and fitness for a particular purpose. With respect to such equipment or service, the Company shall not be liable for any incidental or consequential damages, including but not limited to loss, damage, or expense directly or indirectly arising from the customer's use of or inability to use this service or equipment, either separately or in combination with other services or equipment.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.24 Commercial Private Line Services (Cont'd)3.24.5 CPL Rates and Charges

Rates and charges for CPL service consider the location of customer designated premises in relation to the Company's network. A CPL customer will be charged applicable Non-Recurring Charges and Monthly Recurring Charges for the rate categories specified in sections 3.24.5.2 and 3.24.5.3, respectively.

A. Rate Categories

Two rate categories apply to each CPL service offering: Channel Terminations and Mileage.

1. The Channel Termination rate category provides for the dedicated digital transmission path between two customer designated premises. One Channel Termination charge applies per customer designated premises at which the channel is terminated. A Channel Termination charge applies when the customer designated premises and the serving wire center are collocated in the same building.
2. The Mileage rate category provides for the dedicated digital transmission facilities path between the customer serving wire centers associated with two customer-designated premises. Two rates apply for the Mileage rate category, a flat rate per circuit and a per-mile rate. The Mileage rate element will be rounded up to the next mile for any fraction of a mile. If both locations of Customer's designated premises are within the same central office, Mileage charges will not apply. Mileage is measured by airline miles using the V and H Coordinates Method, as set forth in the National Exchange Carrier Association Tariff F.C.C. No. 4.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.25 Virtual Foreign Exchange Service

Virtual Foreign Exchange Service is exchange service furnished from an exchange other than the one which normally serves the area in which the customer is located. Virtual Foreign Exchange Service is available when both the foreign rate center and the rate center in which the customer is located are served by a single switch and are supported by the same 911 selective router.

Virtual Foreign Exchange Service may be provided as Inbound Only, Outbound Only or Two-Way service. Virtual Foreign Exchange Service is available on the following services: Business Lines, Centrex Lines, Analog Trunks, Full Switched T1, Fractional Switched T1, ISDN-PRI and ISDN-BRI. See Section 3.1 of this Tariff for full product descriptions.

The local calling area that applies to Virtual Foreign Exchange Service is the same as that which regularly applies to other Company-provided local exchange access service bearing the same NPA-NXX designation.

3.25.1 Restrictions

Mixing of Virtual Foreign Exchange Service lines and non-Virtual Foreign Exchange Service lines within a service arrangement such as Hunting, PBX and ISDN Trunk Groups is allowed only when non-Virtual Foreign Exchange Service lines/trunks hunt to Virtual Foreign Exchange Service lines/trunks.

Customer must subscribe to Virtual Foreign Exchange Service for a minimum contract period of one year. Virtual Foreign Exchange Service is and it is co-terminus with the service to which it is terminated.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

The following sections will apply to customers who are served by a Central Office where the former Allegiance Telecom of Arizona, Inc. has facilities and to existing Customers of XO Arizona, Inc. as of February 6, 2005.

Category Two - Sections 3.26 thru 3.56**3.26 Exchange Service Areas**

Local exchange services are provided, subject to availability of facilities and equipment, in areas currently served by the following incumbent LECs:

US West Communications

3.27 Rate Groups

Charges for local services provided by the Company may be based, in part, on the Rate Group associated with the Customer's Central Office. The Rate Group is determined by the total access lines and PBX trunks in the local calling area which can be reached from each Central Office as listed in the following table:

<u>Rate Group</u>	<u>Exchange Access Lines and PBX Trunks In Local Calling Area - Upper Limit</u>
A	Includes All Exchanges

3.28 Local Calling Areas

Local Calling Areas and exchanges are equivalent to those specified by US West Communications in its Exchange and Network Services Tariff, Section 5.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.29 Connection Charges3.29.1 General

Connection Charges are nonrecurring charges which may apply to the following:

- (a) the installation of a new service;
- (b) the transfer of an existing service to a different location;
- (c) a change from one class of service to another at the same or a different location; or
- (d) restoral of service after suspension or termination for nonpayment.

The Company alone may make changes in the location of its lines and equipment. When it is found that a move or change of such lines or equipment has been made by others, the Connection Charge for the underlying service will apply as if the work had been done by the Company.

The Customer may be assessed a charge for any move, add or change of a Company service. Move, Add and Change are defined as follows:

Move - The disconnection of existing equipment at one location and reconnection of the same equipment at a new location in the same building or in a different building on the same premises.

Add - The addition of a service to existing equipment and/or service at one location.

Change - The change, including rearrangement or reclassification, of existing service at the same location.

3.29.2 Exceptions to Connection Charges

The Company may from time to time waive or reduce the connection charges as part of a promotion or trial.

3.29.3 Restoral Charge

A restoral charge applies each time a service is reconnected after suspension or termination for nonpayment pursuant to this tariff but before cancellation of the service.

Non-Recurring

Restoral Charge: (after company initiates suspension, per line)

Customers may be presubscribed to the carrier of their choice for both interLATA and intraLATA service. The Customer will incur a charge as provided below each time there is a change in the long distance carrier associated with the Customer's intraLATA or interLATA service after the initial installation of service. For example, if a Customer changes both its interLATA and intraLATA carriers simultaneously, a total of two (2) separate charges will apply (one for the interLATA change and one for the intraLATA change).

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.32 Basic Local Line Service

Basic Local Line Service, Multi-Line Service, Local Analog PBX Trunk Service, Local Digital PBX Trunk Service, Local ISDN PRI Service, and Integrated Access Service are offered with flat rated local service. All Network Switched Service may be connected to Customer-provided terminal equipment such as station sets, Multi-Line systems, PBX systems, or facsimile machines.

Service may be arranged for two-way calling, inward calling only or outward calling only. Voice Mail Service is available.

3.32.1 Description

Basic Local Line Service - provides a Customer with a single analog, voice-grade telephonic communications channel that can be used to place or receive one call at a time. Basic Lines are provided for connection of Customer-provided single-line terminal equipment such as station sets or facsimile machines.

Each Basic Line has the following characteristics:

Terminal Interface:	2-wire
Signaling Type:	Loop start
Pulse Types:	Dual Tone Multifrequency (DTMF)
Directionality:	Two-Way, In-Only, or Out-Only, at the option of the Customer

Flat Rate Basic Local Line Service - Calls to points within the local exchange area are provided at no charge. Local Calling areas are as specified in Section 3.

A. Recurring and Nonrecurring Charges

Charges for each line include a monthly recurring service charge. Nonrecurring charges apply as described in Section 4 of this Tariff.

<u>Basic Local Line Charge (per line):</u>	<u>Maximum Recurring</u>

3.33 Multi-Line Service3.33.1 Description

Multi-Line Service provides the Customer with one or more analog, voice-grade telephonic communications channels which can be used to place or receive one call at a time. Multi-Line Service is provided for connection of Customer-provided multi line system terminal equipment. All Multi-Lines include Touch Tone and may be equipped with Multi-Line Hunt.

Each Multi-Line has the following characteristics:

Terminal Interface:	2-wire
Signaling Type:	Loop start
Pulse Types:	Dual Tone Multifrequency (DTMF)
Directionality:	Two-Way, In-Only, or Out-Only, at the option of the Customer

Flat Rate Multi-Line Service - Calls to points within the local exchange area are provided at no charge. Local Calling areas are as specified in Section 3.

3.34 Local Analog PBX Trunk Service3.34.1 Description

Local Analog PBX Trunk Service provides the Customer with one or more, analog voice grade telephonic communications channels which can be used to place or receive one call at a time. Local calls on two-way trunks and DOD trunks are billed on a flat rate basis. DID trunks are arranged for one-way inward calling only.

An analog PBX Trunk, provides the Customer with a single, voice-grade communications channel. Each Trunk is to be used to connect the Customer's Private Branch Exchange (PBX) systems to the Public Switched Network (PSN). Each Trunk is automatically configured into a Hunting Arrangement along with other Company-provided Trunk Services. Each Trunk will, for an additional charge, be equipped with Direct Inward Dial (DID) capability. Charges for blocks of telephone numbers assigned pursuant to the North America Numbering Plan are reflected herein.

The following service arrangements are available:

One-Way Inbound, One-Way Outbound, or Two-Way

A. Recurring and Nonrecurring Charges

Nonrecurring charges apply as described in this tariff. Analog PBX Trunks include a monthly recurring charge.

<u>Local Analog PBX Trunk Charge (per trunk):</u>	<u>Maximum Recurring</u>

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.35 Local Digital PBX Trunk Service3.35.1 Description

Local Digital PBX Trunk Service provides a Customer with connection to the Company switch via a DS1 digital local loop connection operating at 1.544 Mbps and time division multiplexed into 24 analog voice grade telephonic communications channels. Digital PBX Trunks are provided for connection of Customer-provided PBX equipment or trunk capable key systems to the Company switch. Each Digital PBX Trunk has the following characteristics:

Terminal Interface:	Channel Bank or DSX-1 panel
Signaling Type:	Ground, E&M I, II, III
Start Dial Indicator:	Immediate Wink, Delay Dial, Dial Tone
Pulse Type:	Dual Tone Multi-Frequency (DTMF)
Directionality:	In-Bound Only, Out-Bound Only or Two Way, as specified by the Customer

Service to points within the local calling area is included in the charge for Local Digital PBX Trunk Service. Charges based on time periods and calendar days are provided herein. Nonrecurring connection and Service Order charges apply as described in Section 4 of this tariff.

Optional Feature(s) - DID Service capability as described in Section 3.4.5 is available. Clear Channel capability as described within this tariff is available. Applicable Nonrecurring charges apply as described in Section 3.29 of this tariff.

Trunk Group Services - Discounted trunk group services are available to Customers subscribing to more than 50 digital trunks at one premise. The discounted rate applies to the 51st trunk and beyond. The first 50 trunks are billed at the non-discounted rates.

Basic Trunks - Inbound Only, Outbound Only and Two-Way trunks not equipped with hunting or DID.

Advanced Trunks - Inbound Only and Two-Way trunks equipped with DID and hunting.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.36 Local ISDN-PRI3.36.1 Local ISDN-PRI Definitions

Local ISDN-PRI - Integrated Services Digital Network Primary Rate Interface (ISDN PRI) is a digital business service that provides PBX equipment and host computer access to a wide variety of switched services. These switched services include circuit switched voice (local calling, Measured Toll Service, 800 and circuit switched data). Each ISDN PRI will allow connection of the aforementioned services via a single central office connection. This service allows PBX equipment and host computer type devices to connect to central office services in bulk quantity, rather than on a line by line or service by service basis.

Each ISDN PRI connection provides access from a Customer premises to the Company's circuit switched voice and circuit switched data via a 1.544 Mbps central office port termination and a 1.544 Mbps Digital Local Loop to the Customers premises. The Digital Local Loop is a DS1 with Clear Channel Capability. The rates and charges for the Loop are in addition to those for the ISDN PRI Port Connection. The central office port connection is provided in base capacities of twenty-three 64 Kbps "B" channels and one 64 Kbps "D" channel (23B+D). The "D" channel is used for out-of-band signaling and control of the "B" channels. Where technology permits, "D" channels can be shared by multiple ISDN PRI's for the same Customer. "B" channels can be dedicated to each circuit switched voice and circuit switched data service by type or they can be shared among service types by using the call by call feature.

Where appropriate facilities do not exist, Special Construction charges will apply, as describe within Section 9 of this tariff.

"B" Channel - "B" Channel (Bearer Channel) is a 64 Kbps digital channel capable of transporting circuit switched voice and circuit switched data.

"D" Channel - "D" Channel (Delta Channel) is a 64 Kbps digital channel used to transport signaling and control the B channels.

Out of Band Signaling - Out of Band Signaling is signaling that is separated from the channel carrying the circuit switched voice and data services.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.36 Local ISDN-PRI, (Cont'd.)3.36.1 Local ISDN-PRI Definitions, (cont'd.)

Call by Call for Trunk Groups - Allows the circuit switched voice and data services enabled on the ISDN PRI to share "B" channels and arrange them as a single trunk group. This allows incoming and outgoing circuit switched voice and data calls to utilize "B" channels on a call by call basis. Without this capability, each service will have a dedicated "B" channel.

Calling Number Identification - All calling numbers presented to the services working on ISDN PRI can be delivered to the Customer's CPE, including calls made to Direct Inward Dialing Service telephone numbers. This feature is optioned on a per ISDN PRI Port basis only and is offered in appropriately equipped central offices.

Clear Channel Capability - The "B" channels on the ISDN PRI are clear, since all signaling and control functions are handled by the "D" channel. This allows all 64 kbps on each "B" channel to be used for Customer information over the ISDN PRI connection. Calls over the network may either be 56 kbps or 64 kbps depending on the public network in place between the ISDN PRI and the distant end of the call.

Digital Voice Transmission - All voice calls are transmitted using digital signaling.

Channel Configuration - Allows some or all B Channels to be dedicated to exchange and MTS, DID, or 800 Services. Multiple dedicated trunk groups can be established on the same primary port or group of primary ports.

Direct Inward Dialing Signal - Permits incoming dialed calls from the exchange network to reach a specific number serviced by Customer-premises equipment (CPE) without the assistance of an attendant. It also provides for the unique identification of the call based on digits sent to the CPE by the central office. The central office will out pulse digits to the CPE which can further process the calls as desired.

Equal Access - Allows the Customer to preselect an Intra and Interexchange Carrier for each circuit switched voice or circuit switched data trunk group. The carrier designation can be changed for applicable charges as shown in Section 4, Presubscription-2 (PIC) of this tariff.

Calling Number Identification Blocking - All Calls - All outgoing calls will be blocked for PRS customers where technically feasible as determined by the Company.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)**3.37 Integrated Services****3.37.1 Integrated Access Bundled Package**

Integrated Access Bundled Package provides a customer channelized high capacity (1.544 Mbps) facility¹ between a customer premises and its serving office for connection to services provided by the Company. Integrated Access Bundled Package allows a customer to integrate voice and data services on a single high capacity facility. The service characteristics and capabilities of the voice services described in this Section are as described in this tariff for multi line business service.

The customer selects a package of 12, 16, 20, or 23 voice lines for local exchange access. The balance of the facility's capacity is available for data applications. The rates herein are for the portion of the service dedicated to voice applications. Charges for nonregulated services and options will apply. The charges for voice lines are inclusive of appropriate End User Common Line Charges (EUCL), Touch Tone and Hunting.

Customers must sign a minimum one (1) year term agreement for Integrated Access Bundled Package. Full termination liabilities are assessed for early termination of service.

3.38 Central Office, Line and Trunk Features3.38.1 General

The features in this Section are made available on an individual basis or as part of multiple feature packages. All features are provided subject to availability; features may not be available with all classes of service. Transmission levels may not be sufficient in all cases. Central Office Calling Features are optional features of central office services furnished to individual line end users. The Company may furnish Central Office Calling Features where there is available central office equipment with the proper program updates as determined by the Company. Central Office Calling Features are only provided for basic access line services. The Customer will be billed a Service Order charge for each change or set-up of each occurrence a feature or group of features is added to the Customer's service.

3.38.2 Description of Line Features

Call Waiting- Alerts a customer who is using his telephone that another caller is trying to reach him. Where facilities permit, Call Waiting subscribers may deactivate Call Waiting for the duration of one call. Call Waiting is automatically reactivated for the next originating or termination call.

Call Forwarding Variable - Enables the customer to transfer all incoming calls to another telephone number within the exchange or on the Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges (e.g., toll charges) for each call between his Call Forwarding equipped telephone and the telephone to which the call is being forwarded. The transmission may not meet normal standards depending on the distance and the routing necessary.

Simultaneous Call Forward - Provides the customer that also subscribes to an appropriate call forwarding service with the ability to forward multiple incoming calls simultaneously to another telephone number designated by the customer. The Simultaneous Call Forwarding Customer must subscribe to sufficient facilities to adequately handle calls. The Simultaneous Call Forwarding customer is responsible for the payment of charges (e.g., toll charges) for each call between the Simultaneous Call Forwarding equipped telephone line and the line to which the call is being forwarded.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.38 Central Office, Line and Trunk Features. (Cont'd.)3.38.2 Description of Line Features. (Cont'd.)

Call Forwarding - Busy Line - Allows incoming calls that encounter a busy condition to be forwarded to a pre-designated telephone number within the exchange or on the Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges (e.g., toll charges) for each call between the Call Forwarding equipped telephone line and the line to which the call is being forwarded. The transmission may not meet normal standards depending on the distance and routing necessary.

Call Forwarding Busy/Don't Answer - Allows incoming calls that encounter a busy condition to be forwarded to a pre-designated telephone number and/or calls which are not answered after a pre-determined number of rings to be automatically forwarded to a pre-designed telephone number within the exchange or on a Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges.

Call Forwarding - Don't Answer - Allows incoming calls which are not answered after a pre-determined number of rings to be automatically forwarded to a pre-designated telephone number within the exchange or on the Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges (e.g., toll charges) for each call between the Call Forwarding equipped telephone line and the line to which the call is being forwarded. The transmission may not meet normal standards depending on the distance and routing necessary.

Remote Access to Call Forwarding - Permits the customer who also subscribes to Call Forwarding with the ability to activate, deactivate or change Call Forwarding from a remote location. Remote Access to Call Forwarding can only be accessed from a Dual Tone Multi-Frequency (DTMF) telephone which has a full set of characters including "*" and "#". All charges incurred to access the remote number will be billed appropriately.

Three-Way Calling - Enables a customer to add a third party to an existing call without operator assistance, thereby establishing a three-way conversation. The transmission may not meet normal standards depending on the distance and routing necessary.

Speed Calling - Enables a customer to place calls to other telephone numbers by dialing a one- or two-digit code rather than the complete telephone number. Eight code capacity and 30 code capacity are available

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.38 Central Office, Line and Trunk Features, (Cont'd.)3.38.2 Description of Line Features, (Cont'd.)

Call Return - Enables the customer to redial automatically the last incoming telephone number. If that telephone number is busy, the Company's equipment will keep trying to call the number for a maximum of thirty (30) minutes beginning with the customer's activation of Call Return in an attempt to establish the call. The customer will be signaled with a distinctive ring when the call can be completed.

Auto Redial - Enables the customer to redial automatically the last outgoing telephone number. If the telephone number is busy, the Company's equipment will keep trying to call the number for a maximum of thirty (30) minutes beginning with the customer's activation of Auto Redial, in an attempt to establish the call. The customer will be signaled with a distinctive ring when the call can be completed.

Call Forwarding/Busy Line Expanded - This feature automatically reroutes an incoming call to a Customer predesignated number outside of the serving central office when the called number is busy.

Call Forwarding/Busy Line External - This feature automatically reroutes an incoming call to a Customer's predesignated number which is outside the customer's system by within the same central office when the called number is busy.

Call Forwarding/Busy Line - Overflow - The feature automatically reroutes an incoming call to a Customer's predesignated number in the same serving central office when the called number is busy.

Call Forwarding Don't Answer - Expanded - This feature automatically reroutes an incoming call to a Customer's predesignated number which is outside of the serving central office when the called number does not answer within the number of rings programmed by the Company.

Simultaneous Call Forwarding - Provides the customer that also subscribes to an appropriate call forwarding service with the ability to forward multiple incoming calls simultaneously to another telephone number designated by the customer. The Simultaneous Call Forwarding customer is responsible for the payment of any applicable toll charges for each call between the Simultaneous Call Forwarding telephone and the line to which the call is being forwarded.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.38 Central Office, Line and Trunk Features. (Cont'd.)3.38.2 Description of Line Features. (Cont'd.)

Call Forwarding Busy Line/Don't Answer - Expanded - This feature allows incoming calls that encounter a busy condition or calls which are not answered after a predetermined number of rings to be automatically forwarded to a pre-selected telephone number which is in a different central office.

Call Forwarding Busy Line/Don't Answer - Overflow - This feature allows incoming calls that encounter a busy condition and/or calls which are not answered after a predetermined number of rings to be automatically forwarded to a pre-selected telephone number within the same central office.

Call Transfer - This feature gives the customer the capability of including another end user on an already established call. After establishing the call, the customer may drop his connection without disconnecting the two end users. While the two parties are connected, access continues to be recorded and will be charged to the customer.

Message Waiting Indicator - This is a companion feature to Forward Call Information. Customers hear an audible interrupted dial tone and, where facilities permit, have an indicator lamp on appropriately equipped customer provided equipment indicating there is a message waiting.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.38 Central Office, Line and Trunk Features, (Cont'd.)3.38.3 Caller ID Services

Caller ID Number Delivery - Allows the transmission of Calling Party Number (CPN) to the subscriber's access lines. When a Calling Number Delivery equipped line is on-hook, CPN is transmitted across the line during the silent interval between the first and second ring. Call Number Delivery subscribers must provide and connect their own compatible customer premises equipment (CPE) to process the CPN transmission.

Caller ID Privacy - Blocks the delivery of customer's Caller ID information on a per trunk group basis. (Provided to Law enforcement, domestic violence crisis intervention agencies and individual victims of domestic violence upon request.)

Caller ID Number and Name Delivery - Combines Caller ID Number Delivery and Caller ID Name Delivery.

Caller ID Blocking, per call - An originating option that allows Customers to control the disclosure of their directory number and name on a call-by-call basis. When activated, the option precludes the originating Customer's telephone number and name, including Customers with nondirectory listed service or a Non-Published Number from being displayed on the terminating Customer's Caller ID display device (s). Activation is accomplished by the calling party dialing the per call blocking activation code prior to initiating a call. There is no charge associated with per call blocking.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.38 Central Office, Line and Trunk Features. (Cont'd.)3.38.3 Caller ID Services. (Cont'd.)

Caller ID Blocking, per line - Allows Customers to automatically block the disclosure of their directory number and name on all originating calls. The option precludes the originating Customer's telephone number and name, including Customers with nondirectory listed service or a Non-Published Number, from being displayed on the terminating Customer's Caller ID display device(s). There is no charge associated with line blocking for the initial request. Subsequent requests to add line blocking will incur a service order charge.

Anonymous Call Rejection (ACR) - Allows customer to automatically reject all calls that have been marked anonymous by the calling party. When ACR is active, the called party receives no alerting (ringing) for a call that has been rejected. The call is routed to a denial announcement and subsequently terminated.

Any calling party may prevent the delivery of CPN and of Calling Party Name to the called party by dialing an access code (*67 on their touch-tone pad) prior to placing a call. The access code is activated per call blocking. Per call blocking is available at no charge.

If a calling party activates blocking, the CPN and Calling Party Name will not be transmitted across the line. Instead, the Caller ID subscriber will receive an anonymous indicator. This anonymous indicator notifies the Caller ID subscriber that the calling party chose to block name and number delivery.

Per-line blocking will be offered at no charge to a particular customer if the Commission receives from the customer written certification that the customer has a compelling need for per-line blocking.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.38 Central Office, Line and Trunk Features, (Cont'd.)3.38.5 Description of Central Office Features

Remote Call Forwarding - Remote Call Forwarding (RCF) is a local exchange telecommunications service feature whereby all calls dialed to a telephone number equipped for RCF are automatically forwarded to another dialable exchange or 8XX Service telephone number. The calling party pays only the applicable charges to call the number equipped with an RCF feature, while the RCF Customer pays the applicable charges for the forwarded portion of the call.

Remote Call Forwarding service is offered subject to availability of suitable facilities.

Remote Call Forwarding service is not offered where the terminating station is a coin telephone.

The Company will not provide identification of the originating telephone number to the RCF Customer.

Transmission characteristics may vary depending on the distance and routing necessary to complete the remotely forwarded call. Therefore, the normal grade end-to-end transmission is not guaranteed on such calls.

Remote Call Forwarding service is not represented as suitable for satisfactory transmission of data.

One directory listing in the Alphabetical Directory is provided without charge. End User Common Line charge does not apply.

Each Remote Call Forwarding feature allows for forwarding one call at a given time. An additional path is necessary for each additional call to be forwarded simultaneously.

Remote Call Forwarding service will only be provided when, in the judgment of the Company, the Customer subscribes to sufficient RCF features and facilities at the terminating location to adequately handle calls without interfering with or impairing any services offered by the Company.

	<u>Recurring</u>	<u>Maximum Non-Recurring</u>

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.38 Central Office, Line and Trunk Features, (Cont'd.)3.38.6 Description of Hunting Line Services

Hunting Line services may be used to establish hunting arrangements between two or more of a customer's local exchange access lines. All of the local exchange access lines in a hunting arrangement group must be the same class of service and grade of service.

Hunting Line services are available to one-party line residence and business customers where Company facilities exist for such hunting line services. However, these hunting line services are not offered with Customer-owned Pay Telephone Service.

- a. Multiline Hunt Service - The hunt for an idle access line starts with the called access line in a prearranged hunt group and ends with the last access line in the hunt group, completing the call to the first idle access line encountered. Unless the first access line in the hunt group is called, only a portion of the access line group is hunted.
- b. Circular Hunt Service - Permits a complete hunt over all the access lines in a prearranged access line hunt group. If no idle access line is encountered, the hunting will continue until it reaches the access line that was originally called.

3.38.6.1 Rates and Charges for Hunting Line Services

Business Multi-Line Hunting and PBX Trunk Hunting:

	<u>Maximum Recurring</u>
Multiline Hunt Service, per line	\$24.00

3.39 Directory Assistance Service3.39.1 General

A Customer may obtain assistance, for a charge, in determining a telephone number by dialing Directory Assistance Service.

Directory Assistance - Local Directory Assistance is a service where customers may request listing information for areas within their LATA or home NPA.

3.39.2 Regulations

A Directory Assistance Charge applies for each call to Directory Assistance for telephone number(s), area code(s), and/or general information requested from the Directory Assistance operator except as follows:

Calls from coin telephones, including COCOTS (Customer Owned Coin Operated Telephone Sets).

Requests in which the Directory Assistance operator provides an incorrect number. The Customer must inform the Company of the error in order to receive credit.

Customer experiences poor transmission or is cut-off during the call.

3.39.3 Rates

Unless one of the exceptions listed above applies, the charges as shown below apply for each request made to the Directory Assistance operator:

Directory Assistance Calls - A flat charge will apply per number requested from Directory Assistance.

Directory Assistance, per call

Maximum Per Use
\$1.50

3.40 Local Operator Services

Operator Handled Calling Services are provided to Customers and Users of Company-provided Exchange Access Service and to Customers and Users of exchange access lines which the Customer has pre-subscribed to the Company's Pre-Subscribed MTS or Total Service Solution products.

3.40.1 Call Types

Person-to-Person - Calls completed with the assistance of a Company operator to a particular person, station, department or PBX extension specified by the calling party. Where this service is available, rates and charges may be billed to the Customer's commercial credit card and/or LEC calling card, calling station, called station or a designated third-party station. Calls may be dialed with or without the assistance of a Company operator.

Station-to-Station - A service where the person originating the call dials the telephone number desired, or gives to the company operator the telephone number of the desired line, branch exchange, branch exchange or Centrex line which is reached directly rather than through a branch exchange or Centrex attendant, or gives only the name and address under which the number of the desired line, or branch exchange or Centrex system is listed, and does not specify a particular person to be reached, nor a particular line, department, or office to be reached through a branch exchange or Centrex attendant.

Collect Call - A billing arrangement by which the charge for a call may be reversed provided the charge is accepted at the called service point. A collect call may be billed to a calling card or third number. In the case of a public or semi-public coin telephone the charges must be billed to a calling card or third number, or the call may be re-originated from the called service point.

Third-Number Billing - A billing arrangement by which a message may be charged to an authorized service point as determined by the company other than the service point originating the call or the service point where the call is terminated.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)**3.41 Busy Verification and Interrupt Service****3.41.1 General**

Upon request of a calling party, the Company will verify a busy condition on a called line. An operator will determine if the line is clear or in use and report to the calling party. In addition, the operator will intercept an existing call on the called line if the calling party indicates an emergency and requests interruption.

3.41.2 Rate Application

- a) A Verification Charge will apply when:
1. The operator verifies that the line is busy with a call in progress, or
 2. The operator verifies that the line is available for incoming calls.
- b) Both a Verification Charge and an Interrupt Charge will apply when the operator verifies that a called number is busy with a call in progress and the Customer requests interruption. The operator will interrupt the call advising the called party of the name of the calling party and the called party will determine whether to accept the interrupt call. Charges will apply whether or not the called party accepts the interruption.
- c) No charge will apply when the calling party advises that the call is from an official public emergency agency.

3.6.4.3 Rates

3.42 Directory Listing Services3.42.1 Directory Listing Definitions

Primary Listing - One listing, termed the primary listing, is included with each Customer's service with the primary line of a line hunting group at no charge.

Non-Listed Listing B A Non-Listed Listing will be furnished at the Customer's request, providing for the omission or deletion of the Customer's listing from the telephone directory. Such listings will be carried in the Company's directory assistance and other records and will be given to any calling party. Charges for a Non-Listed Listing are specified herein.

Non-Published Listing - A Non-Published Listing will be furnished at the Customer's request. A Non-Published Listing is not listed in the telephone Company's directories, or on directory assistance records. Listing information (name, address and number) on a Non-Published Listing is not available to the general public. Charges for a Non-Published Listing are specified herein.

Additional Listing includes the following options:

Foreign Listing B Where available, a listing in a telephone directory which is not in the Customer's immediate calling area. The Customer will be charged the rates specified in the tariff published by the specific local exchange carrier providing the Foreign Listing.

Alternative Listing B Where available, a listing which references a telephone number which is not the primary listing for the Customer. The Customer must provide written verification that the alternate telephone number is authorized to accept calls. Charges for Alternative Listings are specified herein as Additional Listing.

Reference Listing B A listing including additional telephone numbers of the same or another Customer to be called in the event there is no answer from the Customer's telephone. Charges for reference listings are specified herein as Additional Listing.

Extra Line Listing - An extra line listing may be provided in the directory if it facilitates the use of telephone service. An extra line consists of five words or any fraction thereof. Ordinarily, an extra line will be provided only when a customer has more than one listed telephone. When a customer needs more than five words to properly direct calls, he may arrange for two or more extra lines.

3.43 Blocking Service3.43.1 General

Blocking service is a feature that permits Customers to restrict access from their telephone line to various discretionary services. The following blocking options are available to Customers:

- a) 900 and 976 Blocking - Allows the subscriber to block all calls beginning with the 900 and 976 prefixes (i.e. 900-XXX-XXXX) from being placed.
 - 1. The Company shall provide blocking, where technically feasible, at no charge on a one-time basis to all telephone subscribers.
 - 2. The Company will charge a nonrecurring fee for each subsequent request for blocking or unblocking pay-per-call service.
 - 3. A subscriber who transfers service to a new location and is served by the same local exchange carrier shall be able to maintain blocking of pay-per-call service without any additional charge to establish blocking at the new location.
 - 4. Requests by subscribers to remove pay-per-call blocking must be in writing to the Company.
- b) Involuntary Blocking of 900 and 976 Numbers B Involuntary blocking of 900 and 976 numbers may be implemented by the telephone company for failure to pay legitimate charges.
- c) Third Number Billed and Collect Call Restriction - provides the subscriber with a method of denying all third number billed and collect calls to a specific telephone number provided the transmitting operator checks their validation data base.
- d) Toll Restriction (1+ and 0+ Blocking) - provides the subscriber with local dialing capabilities but blocks any Customer-dialed call that has a long distance charge associated with it.

Toll Restriction will not block the following types of calls: 911 (Emergency), 1 + 8XX(Toll Free), and operator assisted toll calls.

3.45 DID Service For Voice Grade Channels3.45.1 Description

DID Service provides the Customer with Direct Inward Dialing on designated voice-grade communications channels. DID Service is to be used in connection with the Customer's Private Branch Exchange (PBX) system. Dialed digits are transmitted for all incoming calls thereby allowing the Customer's PBX system to route incoming calls directly to individual stations by Customer-assigned DID telephone number. Each trunk provisioned for DID Service is automatically configured into a Hunting Arrangement. Charges for blocks of telephone numbers assigned pursuant to the North America Numbering Plan.

3.45.2 General

Standard Feature(s) - Each Company-provided Trunk for DID Service will automatically include Tone Dialing and a Hunting Arrangement at no additional charge to the Customer. The following service arrangement(s) are available:

One-Way Inbound

3.45.3 Recurring Charges

Charges are in addition to Local Trunk services as described within this tariff. Nonrecurring charges apply as described in Section 4 of this tariff.

	<u>Recurring</u>	<u>Maximum</u> <u>Nonrecurring</u>

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.46 Wire Maintenance Plan3.46.1 General

The Wire Maintenance Plan (WMP) is an optional plan which provides customers with a diagnosis of their inside wiring problem and any necessary repairs. WMP is only available to single, multi line, analog PBX and Integrated Services customers.

For a monthly fee per line, the WMP customer will receive wiring repairs at no incremental cost. There are no initiation fees. If a customer chooses to order WMP, it must be purchased on all eligible lines per service location. Existing customers purchasing the WMP will experience a 30 day waiting period before the plan is effective. New customers purchasing WMP will benefit from the plan upon initiation of their service.

Customers who do not subscribe to WMP may incur maintenance service charges for all Company premises visits and wiring repairs.

3.46.2 Single-line Telephone Service

The Company will diagnose, repair and maintain the inside wiring from the Demarcation Point, as defined in the Voice Service Order/ Integrated Services Order form, to and including the telephone jacks inside Customer's premises associated with each eligible telephone line covered under the WMP (subject to the "Exclusion" listed elsewhere in this section) that became necessary and are reported to the Company.

3.46.3 Multi-Line or Analog Trunk Telephone Service

The Company will diagnose, repair and maintain the inside wiring from the Demarcation Point, as defined in the Voice Service Order/Integrated Services Order form, to the extended Demarcation Point terminating at Customer's key service unit ("KSU"), or analog PBX, associated with each eligible telephone line covered under the WMP (subject to the "Exclusions" listed elsewhere in this section) that become necessary and are reported to the Company. Trouble isolation can often be accomplished through office testing facilities. The Company reserves the right to dispatch technicians at its sole discretion to isolate any service problems. Customers will be charged a maintenance service charge in accordance with the Company's Tariffed List Price for any technician service visit provide by the Company or its representatives, if Customer does not subscribe to the Wire Maintenance Plan.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.46 Wire Maintenance Plan, (Cont'd.)3.46.4 Line Eligibility

WMP is offered to the Company customers who have either standard single-line, multi-line or analog trunk telephone service. Customer must subscribe to WMP on all eligible telephone lines provided by the Company. WMP does not apply to the items specified under "Exclusions" in this tariff.

3.46.5 Limited 30-Day Warranty

The Company warrants for a period of thirty (30) days that the services and products provided under WMP will meet accepted industry practices. Should any failure to conform to this warranty appear and be reported to the Company within said thirty (30) day period, the Company shall re-perform the nonconforming services, and repair or replace the nonconforming product(s). Such re-performance of work, and repair or replacement of nonconforming products, shall constitute the entire liability of the Company and sole remedy of the Customer under this warranty, whether a claim or remedy is sought in contract, tort (including negligence), strict liability, or otherwise. THE FOREGOING WARRANTIES ARE EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, WHETHER WRITTEN OR IMPLIED, IN FACT OR IN LAW. THE COMPANY DISCLAIMS ANY AND ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.46 Wire Maintenance Plan, (Cont'd.)3.46.7 Exclusion

The Wire Maintenance Plan does not apply to or cover the following:

- * Data lines;
- * Repairs to riser cables, house cables or cables between buildings;
- * Problems or malfunctions that exist prior to the commencement of the WMP;
- * Malfunctions resulting from the use of voice grade lines to transmit or receive data or signals beyond the operating parameters of the telephone line;
- * Repair or replacement of Customer's telephone equipment or instruments and other devices including, but not limited to KSU, telephone sets or station, computer modems and answering machines which are connected to the inside wire jacks;
- * No temporary or loaner telephone equipment will be provided;
- * Wiring from the extended Demarcation Point to Customer's key service unit;
- * Wiring from Customer's key service unit to Customer's key service stations;
- * Wiring for ISDN circuits or digital PBX trunks;
- * Restoration to premises if asked to repair concealed wire;
- * Installation of new telecommunications wiring, jacks or conduit;
- * Repair or maintenance of inside wire and jacks for marine activity, recreational vehicles (RVs) and construction trailers, or other temporary or moveable structures;
- * Repair of damages caused by Customer's faulty telecommunications equipment;
- * Repair of damages due to the negligence, intentional misuse or abuse caused by Customer, its employees or agents;
- * Repair of damages due to riots, acts of war, natural disasters such as floods, fire, windstorms and earth quakes, or acts of God; and
- * Non-standing wiring, i.e., wiring which does not meet telephone industry standards or the National Electric Code Material Standards for carrying telephone signals. The Wire Maintenance Plan will cover the repair of breaks to non-standard wire, but only to restore the wire to its original condition. The Wire Maintenance Plan does not cover replacement of non-standard wire.

The Company, in its sole discretion, reserves the right to exclude other repairs or maintenance other than those set above.

3.46 Wire Maintenance Plan (Cont'd.)3.46.8 Termination

Customers may terminate participation in the Wire Maintenance Plan at any time by giving notice to the Company as set forth under the Notices provision of the Voice Service Order/Integrated Access Order form. The Company may terminate Customer's participation in the Wire Maintenance Plan as provided for under the Voice Service Order/Integrated Access Order form.

3.46.9 Effective Date

Commencement of coverage under the Wire Maintenance Plan for existing voice service shall not be effective until thirty (30) days after the Company receives Customer's request to commence the Wire Maintenance Plan. Commencement of coverage under the Wire Maintenance Plan for new voice service shall be effective on a date to be determined by the Company, which shall not be later than thirty (30) days after the installation of said new voice service. Should Customer subscribe to the Wire Maintenance Plan at the same time Customer request service on an inside wire or jack problem, the Wire Maintenance Plan will not cover service for that particular visit or problem, and Customer will be charged a maintenance service charge in accordance with the Company's Tariffed List Price.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.50 Special Contract Arrangements

- 3.50.1 At the option of the Company, services may be offered on a contract basis to meet specialized pricing requirements of the Customer not contemplated by this tariff. The terms of each contract shall be mutually agreed upon between the Customer and Company and may include discounts off of rates contained herein and waiver of recurring, nonrecurring, or usage charges. The terms of the contract may be based partially or completely on the term and volume commitment, type of originating or terminating access, mixture of services or other distinguishing features. Service shall be available to all similarly situated Customers for a fixed period of time following the initial offering to the first contract Customer as specific in each individual contract.

3.51 Special Service Arrangements

- 3.51.1 If a Customer's requirements cannot be met by services included in this tariff, or pricing for a service is shown in this tariff as ICB, the Company will provide, where practical, special service arrangements at charges equal to the estimated cost of furnishing such features, facilities or services. These special service arrangements will be provided if the provision of such arrangements are not detrimental to any other services furnished under the Company's tariffs.
- 3.51.2 Rates for special service arrangements will be based on the estimated cost for furnishing the service. Estimated costs will be determined in accordance with Section 9 (Special Construction) of this tariff.
- 3.51.3 Special service arrangement rates are subject to revision depending on changing costs.
- 3.51.4 If and when a special service arrangement becomes a tariffed offering, the tariffed rate or rates will apply from the date of tariff approval.

3.52 Non-Routine Installation Charges

- 3.52.1 At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or in hazardous locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays or night hours, additional charges may apply.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.53 Special Construction Charges3.53.1 General

- A. Special construction charges may apply for services provided to the Customer by the Company. Special construction includes but is not limited to that construction undertaken:
- (a) where facilities are not presently available, and there is no other requirement for the facilities so constructed;
 - (b) of a type other than that which the Company would normally utilize in the furnishing of its services;
 - (c) over a route other than that which the Company would normally utilize in the furnishing of its services;
 - (d) in a quantity greater than that which the Company would normally construct;
 - (e) on an expedited basis;
 - (f) on a temporary basis until permanent facilities are available;
 - (g) involving abnormal costs;
 - (h) in advance of its normal construction; or
 - (i) when the Company furnishes a facility or service for which a rate or charge is not specified in the Company's tariff.
- B. Where the Company furnishes a facility or service requiring special construction, charges will be based on the costs incurred by the Company and may include: (1) non-recurring charges; (2) recurring charges; (3) usage charges; (4) termination liabilities; or (5) a combinations thereof.
- C. Rates and charges for special construction shall be determined and presented to the Customer for its approval prior to the start of construction. No construction will commence until and unless the Customer accepts in writing the rates and charges as presented by the Company.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.53 Special Construction Charges, (Cont'd.)3.53.2 Basis for Cost Computation

Costs for special construction may include one or more of the following items to the extent they are applicable:

- (a) cost of installed facilities to be provided including estimated costs for the rearrangements of existing facilities. Cost may include:
 - 1) installation of equipment and materials provided or used,
 - 2) engineering, labor and supervision during construction,
 - 3) transportation of materials, and
 - 4) rights of way required for transmission facilities;
- (b) cost of operation, maintenance, and administration of equipment and facilities;
- (c) depreciation on the estimated cost installed of any facilities provided, based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage;
- (d) general administrative expenses, including taxes on the basis of average charges for these items;
- (e) license preparation, processing and related fees;
- (f) tariff preparation, processing and other related regulatory fees;
- (g) any other item of expense associated with the particular special service arrangement; and
- (h) an amount, computed on the estimated installed cost of the facilities used to provide the special service arrangement, for return on investment and contingencies.

3.53 Special Construction Charges, (Cont'd.)

3.53.3 Termination Liability

- A. To the extent that there is no other requirement for use by the Company, a termination liability may apply for facilities or services specially constructed at the request of the Customer.
- B. The termination liability period is the estimated service life of the facilities provided.
- C. The amount of the maximum termination liability is equal to the estimated cost for installation and operation of the service during its service life. Costs include those items previously listed in Section 3.55.2.
- D. The applicable termination liability will be calculated based on the following:
 - (a) Multiplying the sum of the amounts determined as set forth in Section 3.55.3.C preceding by a factor related to the unexpired period of liability and the discount rate for return and contingencies.
 - (b) The amount determined in 3.55.3.D preceding shall be adjusted to reflect the predetermined estimate net salvage, if any, including any reuse of the facilities provided.
 - (c) The final termination liability is then adjusted to reflect applicable taxes or regulatory fees.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.54 Other Special Charges3.54.1 Application of Special Charges

Special charges may apply in addition to the usual service connection charges and monthly rates when unusual investment or expense will be incurred by the Company. Special charges will apply when:

- (a) conditions or Customer request which requires the provision of special equipment or unusual or nonstandard methods of plant construction, installation or maintenance or a move of the Company's facilities;
- (b) the Customer's location requires the use of costly private right-of-way; or
- (c) the proposed service is of a temporary nature, and the plant to be placed would not be useful to the Company in the general conduct of its business after that service was discontinued.

3.54.2 Customer Requirements for Special Charges

- A. The Company shall retain title to all plant constructed, as specified within this tariff, provided wholly or partially at the Customer's expense.
- B. When attachments are made to poles of other companies, instead of providing construction for which the Customer would be charged under the provisions of this section, the Customer shall pay the Company's cost for such attachments.
- C. The Customer is required to pay the construction charges made by another telephone company providing facilities to connect with the facilities of the Company.

SECTION 3 - SERVICE OFFERINGS, RATES & CHARGES (CONT'D.)

3.54 Other Special Charges. (Cont'd.)3.54.3 Construction on Private Property

- A. The Company will furnish an average amount of entrance and distribution facilities, provided the facilities are of the standard type normally furnished for the particular location or kind of service.
- B. If additional entrance or distribution facilities are required, or if conditions require special equipment, maintenance or methods of construction, if the installation is for a temporary purpose, or if for any other reason, the construction costs are excessive as compared with the revenue to be derived from the project, the applicant may be required to pay for costs over and above the costs applicable for a normal installation.
- C. The Customer will provide the Company upon request and without charge written permission for the placement of the Company's facilities on his property.
- D. The Customer is responsible for providing satisfactory entrance to the building and space for mounting any necessary network protection equipment.

3.54.4 Temporary Service

Where plant construction is required to provide any temporary service or facility, or where it is necessary to place temporary construction in advance of permanent construction in order to meet the Customer's requirements, the Customer shall be charged the estimated cost of construction and removal of the plant which would not be of value to the Company, less the estimated net recovery value of the material used.

SECTION 4 - GRANDFATHERED SERVICE OFFERINGS

4.1 Integrated Services Digital Network (ISDN)

ISDN supports the simultaneous use of voice and data over the same access line. ISDN provides a completely digital transmission. XO ISDN is available as Basic Rate Interface (BRI) or Primary Rate Interface (PRI).

BRI consists of two-bearer (B) channels and one data (D) channel. With BRI, the B channels can carry voice conversations at 64kbps or can be combined to provide 128kbps throughput. The D channel operates at 16kbps.

PRI consists of twenty-three bearer (B) channels and one data (D) channel. With PRI, the B channels can carry voice conversations at 1.544 megabits per second.

The Customer's terminal equipment and interconnection through non-digital central offices may cause transmission speeds to be slower than the maximum achievable.

Customer Premise Equipment that is compatible with the ISDN interface is the responsibility of the Customer. XO is not responsible if any changes in the provisioning of ISDN-BRI/PRI result in the obsolescence of Customer's equipment or the need for the Customer to modify or change their Customer premise equipment. Additionally, ISDN-BRI/PRI is subject to the availability of company facilities.

ISDN-BRI/PRI includes the following features:

Calling Number
Touch Tone
Hunting between ISDN lines

LOCAL EXCHANGE SERVICES TARIFF

SECTION 4 - GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.3 Local Trunk: Local Trunk(s) provide Customer with voice-grade communication channel(s) to the Customer's Private Branch Exchange ("PBX") or Hybrid Key System. Local Trunks can be provisioned as either analog or digital and will be provided in the following manner:

4.3.1 Local Trunk-Basic: Local Trunk-Basic can be used to carry one-way outbound traffic, one-way inbound or two-way traffic.

4.3.2 Local Trunk - Digital: Local Trunk - Digital provides a DS-1 digital transmission facility operating at 1.544 Mbps and time division multiplexed into 24 channels for the connection of Basic or DID Trunks to the Customer's PBX or trunk-capable Key System. Local Trunk - Digital can be used to carry one-way outbound traffic, one-way inbound or two-way traffic, Direct Inward Dialing, or a combination thereof.

4.3.3 Optional Local Trunk Configurations

- A. One-Way Outbound: Provides the Customer with a single analog connection which is restricted to carry outbound traffic only.
- B. One-Way Inbound or Two-Way: Provides the Customer with individual channels which are used to carry one-way inbound or two-way traffic. One common telephone number will be provided per trunk group.
- C. Direct Inward Dialing ("DID"): Provides the Customer with individual channels which can carry one-way inbound traffic. Local Trunks configured for DID service will outpulse the dialed station number to the Customer's PBX or Key equipment, thereby, permitting direct routing of the call without the aid of an attendant. The number of digits to be out pulsed must be specified by the Customer

Additional set-up charges and number charges apply for local trunks configured for DID service as specified in Section 4.3.5.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 4 - GRANDFATHERED SERVICE OFFERINGS (CONT'D.)**4.5 X OPTION Service Offering**

The XOption Service Offering is a bundled service that includes XO local exchange, inbound and outbound domestic long distance and DSL or Dedicated Internet Access services provided at the same customer location. This service is available to Business customers and is subject to the availability of facilities and only offered where technically feasible.

Rates indicated below do not include sales, use, gross receipts, excise, access or other local, state and federal taxes, charges, user fees, or surcharges.

Under the XOption Service Offering the Customer selects and receives service under one of the XOption listed in Sections 3.1.3.A through 3.1.3.N below. Each XOption includes the Standard Feature Package as defined in Section 3.13.P, at no additional cost. Additional voice features beyond the Standard Feature Package are available at tariffed rates. The Monthly Recurring Charge for each XOption includes unlimited local exchange service, a specified amount of inbound and outbound domestic long distance service, and the Standard Feature Package.

Unused minutes may not be carried over to the following month. Additionally, the Customer must commit to a minimum one year term agreement for both voice and Internet services in order to be eligible for the XOption Service Offering.

4.5.1 XOption #1

To receive service under XOption #1, the Customer must order a minimum of 10 (ten) but no more than 13 (thirteen) basic Business local exchange lines or trunks and DSL service. Customer must choose from one of the three options for the monthly minutes of domestic long distance usage: "A" = 4,000 minutes, "B" = 7,000 minutes, "C" = 10,000 minutes, and "D" = 25,000 minutes. The domestic long distance usage above the monthly minutes for A, B, C or D will be billed at rates set forth in XO Arizona, Inc.'s Message Toll Service tariff for intrastate toll use or pursuant to the Terms and conditions governing long distance traffic found on Company's website for interstate use. The MRC for each Option is listed below. Each XOption #1 includes unlimited local exchange calling. International usage is provided under the Company's Platinum Small Business Plan pursuant to the Terms and conditions governing international traffic found on Company's website.

	<u>Maximum</u>
Monthly Recurring Charge	A=\$2,000.00
	B=\$2,500.00
	C=\$3,000.00
	D=\$3,500.00

SECTION 4 - GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.6 XO Integrated Access Service

XO Integrated Access is a bundled service offering that requires the Customer to purchase, at the same customer location, local exchange service, message toll service and Internet services from the Company. The standard configuration involves having a single DS-1 to the Customers' premises. Service can also be provided via ISDN PRI. When ordering service via a DS-1, the Customer must purchase a minimum of (ten) local exchange lines or channels. In order to get the following pricing for this service, the Customer must, at a minimum, enter a one year service order agreement. Usage for message toll is not included in the following rates. The Non-Recurring and Monthly Recurring charges are specified in Sections 3.23.3 and 3.23.4 below.

- 4.6.1 Standard Features: Integrated Access Customers subscribed to the Basic Business Line product will receive the following Standard Features at no additional charge:

Call Forward Variable
Call Forward Busy
Call Forward No Answer
Speed Calling
Call Waiting
Touchtone
3 Way Calling

- 4.6.2 Optional Features: An Integrated Access Service Customer may order optional features at standard rates specified in this tariff.

- 4.6.3 Non-Recurring Charges: For initial installation of XO Integrated Access Service over a single DS-1 or ISDN, Customers will pay a non-recurring installation charge specified below. Installation charges for those Customers that purchase more than a DS-1 or ISDN worth of capacity will be done on an Individual Case Basis (ICB). If a customer chooses to add additional local exchange lines or channels after installation of the initial service, the Company's regular non-recurring installation charges for local exchange service, as specified in this tariff will apply.

	<u>Maximum</u>
Single DS1	\$4,000.00
ISDN PRI	\$4,000.00

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

The following sections will apply to customers who are the former Allegiance Telecom of Arizona, Inc. as of
December 15, 2004.
Sections 4.9 thru 4.36

4.9 Exchange Service Areas

Local exchange services are provided, subject to availability of facilities and equipment, in areas currently served by the following incumbent LECs:

US West Communications

4.10 Rate Groups

Charges for local services provided by the Company may be based, in part, on the Rate Group associated with the Customer's Central Office. The Rate Group is determined by the total access lines and PBX trunks in the local calling area which can be reached from each Central Office as listed in the following table:

<u>Rate Group</u>	<u>Exchange Access Lines and PBX Trunks In Local Calling Area - Upper Limit</u>
A	Includes All Exchanges

4.11 Local Calling Areas

Local Calling Areas and exchanges are equivalent to those specified by US West Communications in its Exchange and Network Services Tariff, Section 5.

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.12 Connection Charges4.12.1 General

Connection Charges are nonrecurring charges which may apply to the following:

- (a) the installation of a new service;
- (b) the transfer of an existing service to a different location;
- (c) a change from one class of service to another at the same or a different location; or
- (d) restoral of service after suspension or termination for nonpayment.

The Company alone may make changes in the location of its lines and equipment. When it is found that a move or change of such lines or equipment has been made by others, the Connection Charge for the underlying service will apply as if the work had been done by the Company.

The Customer may be assessed a charge for any move, add or change of a Company service. Move, Add and Change are defined as follows:

Move - The disconnection of existing equipment at one location and reconnection of the same equipment at a new location in the same building or in a different building on the same premises.

Add - The addition of a service to existing equipment and/or service at one location.

Change - The change, including rearrangement or reclassification, of existing service at the same location.

4.12.2 Exceptions to Connection Charges

The Company may from time to time waive or reduce the connection charges as part of a promotion or trial.

4.12.3 Restoral Charge

A restoral charge applies each time a service is reconnected after suspension or termination for nonpayment pursuant to this tariff but before cancellation of the service.

Non-Recurring

Restoral Charge: (after company initiates suspension, per line)

4.17 Local Analog PBX Trunk Service4.17.1 Description

Local Analog PBX Trunk Service provides the Customer with one or more, analog voice grade telephonic communications channels which can be used to place or receive one call at a time. Local calls on two-way trunks and DOD trunks are billed on a flat rate basis. DID trunks are arranged for one-way inward calling only.

An analog PBX Trunk, provides the Customer with a single, voice-grade communications channel. Each Trunk is to be used to connect the Customer's Private Branch Exchange (PBX) systems to the Public Switched Network (PSN). Each Trunk is automatically configured into a Hunting Arrangement along with other Company-provided Trunk Services. Each Trunk will, for an additional charge, be equipped with Direct Inward Dial (DID) capability. Charges for blocks of telephone numbers assigned pursuant to the North America Numbering Plan are reflected herein.

The following service arrangements are available:

One-Way Inbound, One-Way Outbound, or Two-Way

A. Recurring and Nonrecurring Charges

Nonrecurring charges apply as described in this tariff. Analog PBX Trunks include a monthly recurring charge.

<u>Local Analog PBX Trunk Charge (per trunk):</u>	<u>Maximum Recurring</u>

4.18 Local Digital PBX Trunk Service4.18.1 Description

Local Digital PBX Trunk Service provides a Customer with connection to the Company switch via a DS1 digital local loop connection operating at 1.544 Mbps and time division multiplexed into 24 analog voice grade telephonic communications channels. Digital PBX Trunks are provided for connection of Customer-provided PBX equipment or trunk capable key systems to the Company switch. Each Digital PBX Trunk has the following characteristics:

Terminal Interface:	Channel Bank or DSX-1 panel
Signaling Type:	Ground, E&M I, II, III
Start Dial Indicator:	Immediate Wink, Delay Dial, Dial Tone
Pulse Type:	Dual Tone Multi-Frequency (DTMF)
Directionality:	In-Bound Only, Out-Bound Only or Two Way, as specified by the Customer

Service to points within the local calling area is included in the charge for Local Digital PBX Trunk Service. Charges based on time periods and calendar days are provided herein. Nonrecurring connection and Service Order charges apply as described in Section 4 of this tariff.

Optional Feature(s) - DID Service capability as described in Section 4 is available. Clear Channel capability as described within this tariff is available. Applicable Nonrecurring charges apply as described in Section 4 of this tariff.

Trunk Group Services - Discounted trunk group services are available to Customers subscribing to more than 50 digital trunks at one premise. The discounted rate applies to the 51st trunk and beyond. The first 50 trunks are billed at the non-discounted rates.

Basic Trunks - Inbound Only, Outbound Only and Two-Way trunks not equipped with hunting or DID.

Advanced Trunks - Inbound Only and Two-Way trunks equipped with DID and hunting.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 4 - GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.19 Local ISDN-PRI4.19.1 Local ISDN-PRI Definitions

Local ISDN-PRI - Integrated Services Digital Network Primary Rate Interface (ISDN PRI) is a digital business service that provides PBX equipment and host computer access to a wide variety of switched services. These switched services include circuit switched voice (local calling, Measured Toll Service, 800 and circuit switched data). Each ISDN PRI will allow connection of the aforementioned services via a single central office connection. This service allows PBX equipment and host computer type devices to connect to central office services in bulk quantity, rather than on a line by line or service by service basis.

Each ISDN PRI connection provides access from a Customer premises to the Company's circuit switched voice and circuit switched data via a 1.544 Mbps central office port termination and a 1.544 Mbps Digital Local Loop to the Customers premises. The Digital Local Loop is a DS1 with Clear Channel Capability. The rates and charges for the Loop are in addition to those for the ISDN PRI Port Connection. The central office port connection is provided in base capacities of twenty-three 64 Kbps "B" channels and one 64 Kbps "D" channel (23B+D). The "D" channel is used for out-of-band signaling and control of the "B" channels. Where technology permits, "D" channels can be shared by multiple ISDN PRI's for the same Customer. "B" channels can be dedicated to each circuit switched voice and circuit switched data service by type or they can be shared among service types by using the call by call feature.

Where appropriate facilities do not exist, Special Construction charges will apply, as describe within Section 9 of this tariff.

"B" Channel - "B" Channel (Bearer Channel) is a 64 Kbps digital channel capable of transporting circuit switched voice and circuit switched data.

"D" Channel - "D" Channel (Delta Channel) is a 64 Kbps digital channel used to transport signaling and control the B channels.

Out of Band Signaling - Out of Band Signaling is signaling that is separated from the channel carrying the circuit switched voice and data services.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.19 Local ISDN-PRI. (Cont'd.)4.19.1 Local ISDN-PRI Definitions. (cont'd.)

Call by Call for Trunk Groups - Allows the circuit switched voice and data services enabled on the ISDN PRI to share "B" channels and arrange them as a single trunk group. This allows incoming and outgoing circuit switched voice and data calls to utilize "B" channels on a call by call basis. Without this capability, each service will have a dedicated "B" channel.

Calling Number Identification - All calling numbers presented to the services working on ISDN PRI can be delivered to the Customer's CPE, including calls made to Direct Inward Dialing Service telephone numbers. This feature is optioned on a per ISDN PRI Port basis only and is offered in appropriately equipped central offices.

Clear Channel Capability - The "B" channels on the ISDN PRI are clear, since all signaling and control functions are handled by the "D" channel. This allows all 64 kbps on each "B" channel to be used for Customer information over the ISDN PRI connection. Calls over the network may either be 56 kbps or 64 kbps depending on the public network in place between the ISDN PRI and the distant end of the call.

Digital Voice Transmission - All voice calls are transmitted using digital signaling.

Channel Configuration - Allows some or all B Channels to be dedicated to exchange and MTS, DID, or 800 Services. Multiple dedicated trunk groups can be established on the same primary port or group of primary ports.

Direct Inward Dialing Signal - Permits incoming dialed calls from the exchange network to reach a specific number serviced by Customer-premises equipment (CPE) without the assistance of an attendant. It also provides for the unique identification of the call based on digits sent to the CPE by the central office. The central office will out pulse digits to the CPE which can further process the calls as desired.

Equal Access - Allows the Customer to preselect an Intra and Interexchange Carrier for each circuit switched voice or circuit switched data trunk group. The carrier designation can be changed for applicable charges as shown in Section 4, Presubscription-2 (PIC) of this tariff.

Calling Number Identification Blocking - All Calls - All outgoing calls will be blocked for PRS customers where technically feasible as determined by the Company.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.20 Integrated Services4.20.1 Integrated Access Bundled Package

Integrated Access Bundled Package provides a customer channelized high capacity (1.544 Mbps) facility¹ between a customer premises and its serving office for connection to services provided by the Company. Integrated Access Bundled Package allows a customer to integrate voice and data services on a single high capacity facility. The service characteristics and capabilities of the voice services described in this Section are as described in this tariff for multi line business service.

The customer selects a package of 12, 16, 20, or 23 voice lines for local exchange access. The balance of the facility's capacity is available for data applications. The rates herein are for the portion of the service dedicated to voice applications. Charges for nonregulated services and options will apply. The charges for voice lines are inclusive of appropriate End User Common Line Charges (EUCL), Touch Tone and Hunting.

Customers must sign a minimum one (1) year term agreement for Integrated Access Bundled Package. Full termination liabilities are assessed for early termination of service.

<u>Voice Channels</u>	<u>Maximum Recurring</u>			
	<u>12</u>	<u>16</u>	<u>20</u>	<u>23</u>

<u>Change Charge,</u> (Applies when upgrading or downgrading channels)				\$90.00

- 1 Integrated Access Bundled Package will be delivered to customers over T-1 or HDSL access. The decision to use HDSL vs. T-1 is an engineering and provisioning decision made solely at the discretion of the Company and is made based on the availability of HDSL facilities. Customers who fall within reach of a Company HDSL-equipped collocation may have Integrated Access Bundled Package delivered to them via HDSL.

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.20 Integrated Services, (Cont'd.)4.20.2 Total Communications - 4 Line Base Package²

Total Communications is designed for customers that need high-speed Internet Access and have 4-20 voice channels. The base package includes 4 voice channels and 256K of Internet Access. Customers may increase the amount of voice channels in one-channel increments (up to a maximum of 20 total voice channels). Total Communications integrates voice and data services on a single high capacity facility. The service characteristics and capabilities of the voice services described in this Section are as described in this tariff for multi line business.

The customer will select a package of 4 voice lines for local exchange access. The balance of the facilities capacity is available for additional voice or data applications. Charges for non-regulated services and options will apply in addition to the charges referenced below. The charges for voice lines are inclusive of appropriate End User Common Line (EUCL), Hunting, and Touch Tone Charges. Customers must sign a minimum (1) year term agreement for Total Communications. Full termination liabilities are assessed for early termination service.

Monthly Recurring Charges (Maximum):

	Voice Channels	
	Incremental Line Charge	
	MRC	NRC
Base Package	\$497.40	\$2697.00
Incremental Lines ¹	\$124.35	\$ 168.00

Total Communications Service will be delivered to customers over T-1 or HDSL2 access. The decision to use HDSL2 vs. T-1 is an engineering and provisioning decision made solely at the discretion of the company and is made based on the availability of HDSL2 facilities. Customers who fall within the reach of a Company HDSL2-equipped collocation may have Total Communications delivered to them via HDSL2.

- 1 NRC applies only to additional lines to existing service.
2- Product is no longer available to new customers.

4.20 Integrated Services, (Cont'd.)

4.20.4 Total Communications – With Digital Handoff

Total Communications with Digital Handoff is designed for customers that need high-speed Internet Access and digital signaling on 6-20 voice channels. The base package includes 6 voice channels and 256K of Internet Access. The balance of the capacity is available for additional voice or data applications. Customers may increase the amount of voice channels in one-channel increments (up to a maximum of 20 total voice channels). Total Communications integrates voice and data services on a single high capacity facility.

The customer will be responsible for the connection from the Integrated Access Device to their equipment (no connection block will be provided with this service). Customers must digitally accept all of their channels. No more than two trunk groups will be provisioned for any given circuit. No custom calling features are available with this product. The available features are the same as those available with the company's Digital PBX product.

Charges for non-regulated services and options will apply in addition to the charges referenced below. The charges for voice lines are inclusive of appropriate End User Common Line (EUCL), Hunting, Touch Tone, and LNP charges. DID Pricing is available in Section 6.8 of this tariff. Customers must sign a minimum (1) year term agreement for Total Communications. Full termination liabilities are assessed for early termination of service.

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.21 Central Office, Line and Trunk Features4.21.1 General

The features in this Section are made available on an individual basis or as part of multiple feature packages. All features are provided subject to availability; features may not be available with all classes of service. Transmission levels may not be sufficient in all cases. Central Office Calling Features are optional features of central office services furnished to individual line end users. The Company may furnish Central Office Calling Features where there is available central office equipment with the proper program updates as determined by the Company. Central Office Calling Features are only provided for basic access line services. The Customer will be billed a Service Order charge for each change or set-up of each occurrence a feature or group of features is added to the Customer's service.

4.21.2 Description of Line Features

Call Waiting- Alerts a customer who is using his telephone that another caller is trying to reach him. Where facilities permit, Call Waiting subscribers may deactivate Call Waiting for the duration of one call. Call Waiting is automatically reactivated for the next originating or termination call.

Call Forwarding Variable - Enables the customer to transfer all incoming calls to another telephone number within the exchange or on the Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges (e.g., toll charges) for each call between his Call Forwarding equipped telephone and the telephone to which the call is being forwarded. The transmission may not meet normal standards depending on the distance and the routing necessary.

Simultaneous Call Forward - Provides the customer that also subscribes to an appropriate call forwarding service with the ability to forward multiple incoming calls simultaneously to another telephone number designated by the customer. The Simultaneous Call Forwarding Customer must subscribe to sufficient facilities to adequately handle calls. The Simultaneous Call Forwarding customer is responsible for the payment of charges (e.g., toll charges) for each call between the Simultaneous Call Forwarding equipped telephone line and the line to which the call is being forwarded.

SECTION 4 - GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.21 Central Office, Line and Trunk Features, (Cont'd.)4.21.2 Description of Line Features, (Cont'd.)

Call Forwarding - Busy Line - Allows incoming calls that encounter a busy condition to be forwarded to a pre-designated telephone number within the exchange or on the Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges (e.g., toll charges) for each call between the Call Forwarding equipped telephone line and the line to which the call is being forwarded. The transmission may not meet normal standards depending on the distance and routing necessary.

Call Forwarding Busy/Don't Answer - Allows incoming calls that encounter a busy condition to be forwarded to a pre-designated telephone number and/or calls which are not answered after a pre-determined number of rings to be automatically forwarded to a pre-designed telephone number with the exchange or on a Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges.

Call Forwarding - Don't Answer - Allows incoming calls which are not answered after a pre-determined number of rings to be automatically forwarded to a pre-designated telephone number within the exchange or on the Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges (e.g., toll charges) for each call between the Call Forwarding equipped telephone line and the line to which the call is being forwarded. The transmission may not meet normal standards depending on the distance and routing necessary.

Remote Access to Call Forwarding - Permits the customer who also subscribes to Call Forwarding with the ability to activate, deactivate or change Call Forwarding from a remote location. Remote Access to Call Forwarding can only be accessed from a Dual Tone Multi-Frequency (DTMF) telephone which has a full set of characters including "*" and "#". All charges incurred to access the remote number will be billed appropriately.

Three-Way Calling - Enables a customer to add a third party to an existing call without operator assistance, thereby establishing a three-way conversation. The transmission may not meet normal standards depending on the distance and routing necessary.

Speed Calling - Enables a customer to place calls to other telephone numbers by dialing a one- or two-digit code rather than the complete telephone number. Eight code capacity and 30 code capacity are available

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.21 Central Office, Line and Trunk Features, (Cont'd.)4.21.2 Description of Line Features, (Cont'd.)

Call Return - Enables the customer to redial automatically the last incoming telephone number. If that telephone number is busy, the Company's equipment will keep trying to call the number for a maximum of thirty (30) minutes beginning with the customer's activation of Call Return in an attempt to establish the call. The customer will be signaled with a distinctive ring when the call can be completed.

Auto Redial - Enables the customer to redial automatically the last outgoing telephone number. If the telephone number is busy, the Company's equipment will keep trying to call the number for a maximum of thirty (30) minutes beginning with the customer's activation of Auto Redial, in an attempt to establish the call. The customer will be signaled with a distinctive ring when the call can be completed.

Call Forwarding/Busy Line Expanded - This feature automatically reroutes an incoming call to a Customer predesignated number outside of the serving central office when the called number is busy.

Call Forwarding/Busy Line External - This feature automatically reroutes an incoming call to a Customer's predesignated number which is outside the customer's system by within the same central office when the called number is busy.

Call Forwarding/Busy Line - Overflow - The feature automatically reroutes an incoming call to a Customer's predesignated number in the same serving central office when the called number is busy.

Call Forwarding Don't Answer - Expanded - This feature automatically reroutes an incoming call to a Customer's predesignated number which is outside of the serving central office when the called number does not answer within the number of rings programmed by the Company.

Simultaneous Call Forwarding - Provides the customer that also subscribes to an appropriate call forwarding service with the ability to forward multiple incoming calls simultaneously to another telephone number designated by the customer. The Simultaneous Call Forwarding customer is responsible for the payment of any applicable toll charges for each call between the Simultaneous Call Forwarding telephone and the line to which the call is being forwarded.

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.21 Central Office, Line and Trunk Features, (Cont'd.)

4.21.2 Description of Line Features, (Cont'd.)

Call Forwarding Busy Line/Don't Answer - Expanded - This feature allows incoming calls that encounter a busy condition or calls which are not answered after a predetermined number of rings to be automatically forwarded to a pre-selected telephone number which is in a different central office.

Call Forwarding Busy Line/Don't Answer - Overflow - This feature allows incoming calls that encounter a busy condition and/or calls which are not answered after a predetermined number of rings to be automatically forwarded to a pre-selected telephone number within the same central office.

Call Transfer - This feature gives the customer the capability of including another end user on an already established call. After establishing the call, the customer may drop his connection without disconnecting the two end users. While the two parties are connected, access continues to be recorded and will be charged to the customer.

Message Waiting Indicator - This is a companion feature to Forward Call Information. Customers hear an audible interrupted dial tone and, where facilities permit, have an indicator lamp on appropriately equipped customer provided equipment indicating there is a message waiting.

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.21 Central Office, Line and Trunk Features, (Cont'd.)4.21.3 Caller ID Services

Caller ID Number Delivery - Allows the transmission of Calling Party Number (CPN) to the subscriber's access lines. When a Calling Number Delivery equipped line is on-hook, CPN is transmitted across the line during the silent interval between the first and second ring. Call Number Delivery subscribers must provide and connect their own compatible customer premises equipment (CPE) to process the CPN transmission.

Caller ID Privacy – Blocks the delivery of customer's Caller ID information on a per trunk group basis. (Provided to Law enforcement, domestic violence crisis intervention agencies and individual victims of domestic violence upon request.)

Caller ID Number and Name Delivery - Combines Caller ID Number Delivery and Caller ID Name Delivery.

Caller ID Blocking, per call - An originating option that allows Customers to control the disclosure of their directory number and name on a call-by-call basis. When activated, the option precludes the originating Customer's telephone number and name, including Customers with nondirectory listed service or a Non-Published Number from being displayed on the terminating Customer's Caller ID display device (s). Activation is accomplished by the calling party dialing the per call blocking activation code prior to initiating a call. There is no charge associated with per call blocking.

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.21 Central Office, Line and Trunk Features, (Cont'd.)4.21.3 Caller ID Services, (cont'd.)

Caller ID Blocking, per line - Allows Customers to automatically block the disclosure of their directory number and name on all originating calls. The option precludes the originating Customer's telephone number and name, including Customers with nondirectory listed service or a Non-Published Number, from being displayed on the terminating Customer's Caller ID display device(s). There is no charge associated with line blocking for the initial request. Subsequent requests to add line blocking will incur a service order charge.

Anonymous Call Rejection (ACR) - Allows customer to automatically reject all calls that have been marked anonymous by the calling party. When ACR is active, the called party receives no alerting (ringing) for a call that has been rejected. The call is routed to a denial announcement and subsequently terminated.

Any calling party may prevent the delivery of CPN and of Calling Party Name to the called party by dialing an access code (*67 on their touch-tone pad) prior to placing a call. The access code is activated per call blocking. Per call blocking is available at no charge.

If a calling party activates blocking, the CPN and Calling Party Name will not be transmitted across the line. Instead, the Caller ID subscriber will receive an anonymous indicator. This anonymous indicator notifies the Caller ID subscriber that the calling party chose to block name and number delivery.

Per-line blocking will be offered at no charge to a particular customer if the Commission receives from the customer written certification that the customer has a compelling need for per-line blocking.

LOCAL EXCHANGE SERVICES TARIFF

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.21 Central Office, Line and Trunk Features, (Cont'd.)4.21.5 Description of Central Office Features

Remote Call Forwarding - Remote Call Forwarding (RCF) is a local exchange telecommunications service feature whereby all calls dialed to a telephone number equipped for RCF are automatically forwarded to another dialable exchange or 8XX Service telephone number. The calling party pays only the applicable charges to call the number equipped with an RCF feature, while the RCF Customer pays the applicable charges for the forwarded portion of the call.

Remote Call Forwarding service is offered subject to availability of suitable facilities.

Remote Call Forwarding service is not offered where the terminating station is a coin telephone.

The Company will not provide identification of the originating telephone number to the RCF Customer.

Transmission characteristics may vary depending on the distance and routing necessary to complete the remotely forwarded call. Therefore, the normal grade end-to-end transmission is not guaranteed on such calls.

Remote Call Forwarding service is not represented as suitable for satisfactory transmission of data.

One directory listing in the Alphabetical Directory is provided without charge. End User Common Line charge does not apply.

Each Remote Call Forwarding feature allows for forwarding one call at a given time. An additional path is necessary for each additional call to be forwarded simultaneously.

Remote Call Forwarding service will only be provided when, in the judgment of the Company, the Customer subscribes to sufficient RCF features and facilities at the terminating location to adequately handle calls without interfering with or impairing any services offered by the Company.

	<u>Recurring</u>	<u>Maximum Non-Recurring</u>
Remote Call Forwarding, per path	\$57.00	\$90.00

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.21 Central Office, Line and Trunk Features, (Cont'd.)4.21.6 Description of Hunting Line Services

Hunting Line services may be used to establish hunting arrangements between two or more of a customer's local exchange access lines. All of the local exchange access lines in a hunting arrangement group must be the same class of service and grade of service.

Hunting Line services are available to one-party line residence and business customers where Company facilities exist for such hunting line services. However, these hunting line services are not offered with Customer-owned Pay Telephone Service.

- a. Multiline Hunt Service - The hunt for an idle access line starts with the called access line in a prearranged hunt group and ends with the last access line in the hunt group, completing the call to the first idle access line encountered. Unless the first access line in the hunt group is called, only a portion of the access line group is hunted.
- b. Circular Hunt Service - Permits a complete hunt over all the access lines in a prearranged access line hunt group. If no idle access line is encountered, the hunting will continue until it reaches the access line that was originally called.

4.21.6.1 Rates and Charges for Hunting Line Services

Business Multi-Line Hunting and PBX Trunk Hunting:

	<u>Maximum</u> <u>Recurring</u>
Multiline Hunt Service, per line	\$24.00

4.22 Directory Assistance Service4.22.1 General

A Customer may obtain assistance, for a charge, in determining a telephone number by dialing Directory Assistance Service.

Directory Assistance - Local Directory Assistance is a service where customers may request listing information for areas within their LATA or home NPA.

4.22.2 Regulations

A Directory Assistance Charge applies for each call to Directory Assistance for telephone number(s), area code(s), and/or general information requested from the Directory Assistance operator except as follows:

Calls from coin telephones, including COCOTS (Customer Owned Coin Operated Telephone Sets).

Requests in which the Directory Assistance operator provides an incorrect number. The Customer must inform the Company of the error in order to receive credit.

Customer experiences poor transmission or is cut-off during the call.

4.22.3 Rates

Unless one of the exceptions listed above applies, the charges as shown below apply for each request made to the Directory Assistance operator:

Directory Assistance Calls - A flat charge will apply per number requested from Directory Assistance.

	<u>Maximum Per Use</u>
Directory Assistance, per call	\$1.50

ORIGINAL**LOCAL EXCHANGE SERVICES TARIFF**

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)**4.23 Local Operator Services**

Operator Handled Calling Services are provided to Customers and Users of Company-provided Exchange Access Service and to Customers and Users of exchange access lines which the Customer has pre-subscribed to the Company's Pre-Subscribed MTS or Total Service Solution products.

4.23.1 Call Types

Person-to-Person - Calls completed with the assistance of a Company operator to a particular person, station, department or PBX extension specified by the calling party. Where this service is available, rates and charges may be billed to the Customer's commercial credit card and/or LEC calling card, calling station, called station or a designated third-party station. Calls may be dialed with or without the assistance of a Company operator.

Station-to-Station - A service where the person originating the call dials the telephone number desired, or gives to the company operator the telephone number of the desired line, branch exchange, branch exchange or Centrex line which is reached directly rather than through a branch exchange or Centrex attendant, or gives only the name and address under which the number of the desired line, or branch exchange or Centrex system is listed, and does not specify a particular person to be reached, nor a particular line, department, or office to be reached through a branch exchange or Centrex attendant.

Collect Call - A billing arrangement by which the charge for a call may be reversed provided the charge is accepted at the called service point. A collect call may be billed to a calling card or third number. In the case of a public or semi-public coin telephone the charges must be billed to a calling card or third number, or the call may be re-originated from the called service point.

Third-Number Billing - A billing arrangement by which a message may be charged to an authorized service point as determined by the company other than the service point originating the call or the service point where the call is terminated.

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.24 Busy Verification and Interrupt Service4.24.1 General

Upon request of a calling party, the Company will verify a busy condition on a called line. An operator will determine if the line is clear or in use and report to the calling party. In addition, the operator will intercept an existing call on the called line if the calling party indicates an emergency and requests interruption.

4.24.2 Rate Application

- a) A Verification Charge will apply when:
1. The operator verifies that the line is busy with a call in progress, or
 2. The operator verifies that the line is available for incoming calls.
- b) Both a Verification Charge and an Interrupt Charge will apply when the operator verifies that a called number is busy with a call in progress and the Customer requests interruption. The operator will interrupt the call advising the called party of the name of the calling party and the called party will determine whether to accept the interrupt call. Charges will apply whether or not the called party accepts the interruption.
- c) No charge will apply when the calling party advises that the call is from an official public emergency agency.

4.24.3 Rates

	<u>Maximum Per Call</u>
Verification Charge, each request	\$4.50
Interrupt Charge, each request	\$9.00

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.25 Directory Listing Services4.25.1 Directory Listing Definitions

Primary Listing - One listing, termed the primary listing, is included with each Customer's service with the primary line of a line hunting group at no charge.

Non-Listed Listing B A Non-Listed Listing will be furnished at the Customer's request, providing for the omission or deletion of the Customer's listing from the telephone directory. Such listings will be carried in the Company's directory assistance and other records and will be given to any calling party. Charges for a Non-Listed Listing are specified herein.

Non-Published Listing - A Non-Published Listing will be furnished at the Customer's request. A Non-Published Listing is not listed in the telephone Company's directories, or on directory assistance records. Listing information (name, address and number) on a Non-Published Listing is not available to the general public. Charges for a Non-Published Listing are specified herein.

Additional Listing includes the following options:

Foreign Listing B Where available, a listing in a telephone directory which is not in the Customer's immediate calling area. The Customer will be charged the rates specified in the tariff published by the specific local exchange carrier providing the Foreign Listing.

Alternative Listing B Where available, a listing which references a telephone number which is not the primary listing for the Customer. The Customer must provide written verification that the alternate telephone number is authorized to accept calls. Charges for Alternative Listings are specified herein as Additional Listing.

Reference Listing B A listing including additional telephone numbers of the same or another Customer to be called in the event there is no answer from the Customer's telephone. Charges for reference listings are specified herein as Additional Listing.

Extra Line Listing - An extra line listing may be provided in the directory if it facilitates the use of telephone service. An extra line consists of five words or any fraction thereof. Ordinarily, an extra line will be provided only when a customer has more than one listed telephone. When a customer needs more than five words to properly direct calls, he may arrange for two or more extra lines.

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.26 Blocking Service4.26.1 General

Blocking service is a feature that permits Customers to restrict access from their telephone line to various discretionary services. The following blocking options are available to Customers:

- a) 900 and 976 Blocking - Allows the subscriber to block all calls beginning with the 900 and 976 prefixes (i.e. 900-XXX-XXXX) from being placed.
 - 1. The Company shall provide blocking, where technically feasible, at no charge on a one-time basis to all telephone subscribers.
 - 2. The Company will charge a nonrecurring fee for each subsequent request for blocking or unblocking pay-per-call service.
 - 3. A subscriber who transfers service to a new location and is served by the same local exchange carrier shall be able to maintain blocking of pay-per-call service without any additional charge to establish blocking at the new location.
 - 4. Requests by subscribers to remove pay-per-call blocking must be in writing to the Company.
- b) Involuntary Blocking of 900 and 976 Numbers B Involuntary blocking of 900 and 976 numbers may be implemented by the telephone company for failure to pay legitimate charges.
- c) Third Number Billed and Collect Call Restriction - provides the subscriber with a method of denying all third number billed and collect calls to a specific telephone number provided the transmitting operator checks their validation data base.
- d) Toll Restriction (1+ and 0+ Blocking) - provides the subscriber with local dialing capabilities but blocks any Customer-dialed call that has a long distance charge associated with it.

Toll Restriction will not block the following types of calls: 911 (Emergency), 1 + 8XX(Toll Free), and operator assisted toll calls.

4.28 DID Service For Voice Grade Channels4.28.1 Description

DID Service provides the Customer with Direct Inward Dialing on designated voice-grade communications channels. DID Service is to be used in connection with the Customer's Private Branch Exchange (PBX) system. Dialed digits are transmitted for all incoming calls thereby allowing the Customer's PBX system to route incoming calls directly to individual stations by Customer-assigned DID telephone number. Each trunk provisioned for DID Service is automatically configured into a Hunting Arrangement. Charges for blocks of telephone numbers assigned pursuant to the North America Numbering Plan.

4.28.2 General

Standard Feature(s) - Each Company-provided Trunk for DID Service will automatically include Tone Dialing and a Hunting Arrangement at no additional charge to the Customer. The following service arrangement(s) are available:

One-Way Inbound

4.28.3 Recurring Charges

Charges are in addition to Local Trunk services as described within this tariff. Nonrecurring charges apply as described in Section 4 of this tariff.

	<u>Recurring</u>	<u>Maximum</u> <u>Nonrecurring</u>

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)**4.29 Wire Maintenance Plan****4.29.1 General**

The Wire Maintenance Plan (WMP) is an optional plan which provides customers with a diagnosis of their inside wiring problem and any necessary repairs. WMP is only available to single, multi line, analog PBX and Integrated Services customers.

For a monthly fee per line, the WMP customer will receive wiring repairs at no incremental cost. There are no initiation fees. If a customer chooses to order WMP, it must be purchased on all eligible lines per service location. Existing customers purchasing the WMP will experience a 30 day waiting period before the plan is effective. New customers purchasing WMP will benefit from the plan upon initiation of their service.

Customers who do not subscribe to WMP may incur maintenance service charges for all Company premises visits and wiring repairs.

4.29.2 Single-line Telephone Service

The Company will diagnose, repair and maintain the inside wiring from the Demarcation Point, as defined in the Voice Service Order/ Integrated Services Order form, to and including the telephone jacks inside Customer's premises associated with each eligible telephone line covered under the WMP (subject to the "Exclusion" listed elsewhere in this section) that became necessary and are reported to the Company.

4.29.3 Multi-Line or Analog Trunk Telephone Service

The Company will diagnose, repair and maintain the inside wiring from the Demarcation Point, as defined in the Voice Service Order/Integrated Services Order form, to the extended Demarcation Point terminating at Customer's key service unit ("KSU"), or analog PBX, associated with each eligible telephone line covered under the WMP (subject to the "Exclusions" listed elsewhere in this section) that become necessary and are reported to the Company. Trouble isolation can often be accomplished through office testing facilities. The Company reserves the right to dispatch technicians at its sole discretion to isolate any service problems. Customers will be charged a maintenance service charge in accordance with the Company's Tariffed List Price for any technician service visit provide by the Company or its representatives, if Customer does not subscribe to the Wire Maintenance Plan.

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.29 Wire Maintenance Plan, (Cont'd.)4.29.4 Line Eligibility

WMP is offered to the Company customers who have either standard single-line, multi-line or analog trunk telephone service. Customer must subscribe to WMP on all eligible telephone lines provided by the Company. WMP does not apply to the items specified under "Exclusions" in this tariff.

4.29.5 Limited 30-Day Warranty

The Company warrants for a period of thirty (30) days that the services and products provided under WMP will meet accepted industry practices. Should any failure to conform to this warranty appear and be reported to the Company within said thirty (30) day period, the Company shall re-perform the nonconforming services, and repair or replace the nonconforming product(s). Such re-performance of work, and repair or replacement of nonconforming products, shall constitute the entire liability of the Company and sole remedy of the Customer under this warranty, whether a claim or remedy is sought in contract, tort (including negligence), strict liability, or otherwise. THE FOREGOING WARRANTIES ARE EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, WHETHER WRITTEN OR IMPLIED, IN FACT OR IN LAW. THE COMPANY DISCLAIMS ANY AND ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

- * Data lines;
- * Repairs to riser cables, house cables or cables between buildings;
- * Problems or malfunctions that exist prior to the commencement of the WMP;
- * Malfunctions resulting from the use of voice grade lines to transmit or receive data or signals beyond the operating parameters of the telephone line;
- * Repair or replacement of Customer's telephone equipment or instruments and other devices including, but not limited to KSU, telephone sets or station, computer modems and answering machines which are connected to the inside wire jacks;
- * No temporary or loaner telephone equipment will be provided;
- * Wiring from the extended Demarcation Point to Customer's key service unit;
- * Wiring from Customer's key service unit to Customer's key service stations;
- * Wiring for ISDN circuits or digital PBX trunks;
- * Restoration to premises if asked to repair concealed wire;
- * Installation of new telecommunications wiring, jacks or conduit;
- * Repair or maintenance of inside wire and jacks for marine activity, recreational vehicles (RVs) and construction trailers, or other temporary or moveable structures;
- * Repair of damages caused by Customer's faulty telecommunications equipment;
- * Repair of damages due to the negligence, intentional misuse or abuse caused by Customer, its employees or agents;
- * Repair of damages due to riots, acts of war, natural disasters such as floods, fire, windstorms and earth quakes, or acts of God; and
- * Non-standing wiring, i.e., wiring which does not meet telephone industry standards or the National Electric Code Material Standards for carrying telephone signals. The Wire Maintenance Plan will cover the repair of breaks to non-standard wire, but only to restore the wire to its original condition. The Wire Maintenance Plan does not cover replacement of non-standard wire.

The Company, in its sole discretion, reserves the right to exclude other repairs or maintenance other than those set above.

4.29 Wire Maintenance Plan. (Cont'd.)4.29.8 Termination

Customers may terminate participation in the Wire Maintenance Plan at any time by giving notice to the Company as set forth under the Notices provision of the Voice Service Order/Integrated Access Order form. The Company may terminate Customer's participation in the Wire Maintenance Plan as provided for under the Voice Service Order/Integrated Access Order form.

4.29.9 Effective Date

Commencement of coverage under the Wire Maintenance Plan for existing voice service shall not be effective until thirty (30) days after the Company receives Customer's request to commence the Wire Maintenance Plan. Commencement of coverage under the Wire Maintenance Plan for new voice service shall be effective on a date to be determined by the Company, which shall not be later than thirty (30) days after the installation of said new voice service. Should Customer subscribe to the Wire Maintenance Plan at the same time Customer request service on an inside wire or jack problem, the Wire Maintenance Plan will not cover service for that particular visit or problem, and Customer will be charged a maintenance service charge in accordance with the Company's Tariffed List Price.

4.31 Promotions

4.31.1 From time to time, the Company shall, at its option, promote subscription or stimulate network usage by offering to waive some or all of the nonrecurring, recurring and usage charges for the Customer (if eligible) of target services for a limited duration. Such promotions shall be made available to all similarly situated Customers in the target market area and will comply with all applicable Commission regulations.

4.32 Demonstration of Service

4.32.1 From time to time the Company may demonstrate service for potential customers by providing free use of its network on a limited basis for a period of time, not to exceed one (1) month. Demonstration of service and the type and duration of service provided will be at the Company's discretion.

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.33 Special Contract Arrangements

- 4.33.1 At the option of the Company, services may be offered on a contract basis to meet specialized pricing requirements of the Customer not contemplated by this tariff. The terms of each contract shall be mutually agreed upon between the Customer and Company and may include discounts off of rates contained herein and waiver of recurring, nonrecurring, or usage charges. The terms of the contract may be based partially or completely on the term and volume commitment, type of originating or terminating access, mixture of services or other distinguishing features. Service shall be available to all similarly situated Customers for a fixed period of time following the initial offering to the first contract Customer as specific in each individual contract.

4.34 Special Service Arrangements

- 4.34.1 If a Customer's requirements cannot be met by services included in this tariff, or pricing for a service is shown in this tariff as ICB, the Company will provide, where practical, special service arrangements at charges equal to the estimated cost of furnishing such features, facilities or services. These special service arrangements will be provided if the provision of such arrangements are not detrimental to any other services furnished under the Company's tariffs.
- 4.34.2 Rates for special service arrangements will be based on the estimated cost for furnishing the service. Estimated costs will be determined in accordance with Section 9 (Special Construction) of this tariff.
- 4.34.3 Special service arrangement rates are subject to revision depending on changing costs.
- 4.34.4 If and when a special service arrangement becomes a tariffed offering, the tariffed rate or rates will apply from the date of tariff approval.

4.35 Non-Routine Installation Charges

- 4.35.1 At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or in hazardous locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays or night hours, additional charges may apply.

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.36 Special Construction Charges4.36.1 General

- A. Special construction charges may apply for services provided to the Customer by the Company. Special construction includes but is not limited to that construction undertaken:
- (a) where facilities are not presently available, and there is no other requirement for the facilities so constructed;
 - (b) of a type other than that which the Company would normally utilize in the furnishing of its services;
 - (c) over a route other than that which the Company would normally utilize in the furnishing of its services;
 - (d) in a quantity greater than that which the Company would normally construct;
 - (e) on an expedited basis;
 - (f) on a temporary basis until permanent facilities are available;
 - (g) involving abnormal costs;
 - (h) in advance of its normal construction; or
 - (i) when the Company furnishes a facility or service for which a rate or charge is not specified in the Company's tariff.
- B. Where the Company furnishes a facility or service requiring special construction, charges will be based on the costs incurred by the Company and may include: (1) non-recurring charges; (2) recurring charges; (3) usage charges; (4) termination liabilities; or (5) a combinations thereof.
- C. Rates and charges for special construction shall be determined and presented to the Customer for its approval prior to the start of construction. No construction will commence until and unless the Customer accepts in writing the rates and charges as presented by the Company.

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.36 Special Construction Charges. (Cont'd.)4.36.2 Basis for Cost Computation

Costs for special construction may include one or more of the following items to the extent they are applicable:

- (a) cost of installed facilities to be provided including estimated costs for the rearrangements of existing facilities. Cost may include:
 - 1) installation of equipment and materials provided or used,
 - 2) engineering, labor and supervision during construction,
 - 3) transportation of materials, and
 - 4) rights of way required for transmission facilities;
- (b) cost of operation, maintenance, and administration of equipment and facilities;
- (c) depreciation on the estimated cost installed of any facilities provided, based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage;
- (d) general administrative expenses, including taxes on the basis of average charges for these items;
- (e) license preparation, processing and related fees;
- (f) tariff preparation, processing and other related regulatory fees;
- (g) any other item of expense associated with the particular special service arrangement; and
- (h) an amount, computed on the estimated installed cost of the facilities used to provide the special service arrangement, for return on investment and contingencies.

4.36 Special Construction Charges. (Cont'd.)

4.36.3 Termination Liability

- A. To the extent that there is no other requirement for use by the Company, a termination liability may apply for facilities or services specially constructed at the request of the Customer.
- B. The termination liability period is the estimated service life of the facilities provided.
- C. The amount of the maximum termination liability is equal to the estimated cost for installation and operation of the service during its service life. Costs include those items previously listed in Section 3.55.2.
- D. The applicable termination liability will be calculated based on the following:
 - (a) Multiplying the sum of the amounts determined as set forth in Section 3.55.3.C preceding by a factor related to the unexpired period of liability and the discount rate for return and contingencies.
 - (b) The amount determined in 3.55.3.D preceding shall be adjusted to reflect the predetermined estimate net salvage, if any, including any reuse of the facilities provided.
 - (c) The final termination liability is then adjusted to reflect applicable taxes or regulatory fees.

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.37 Other Special Charges4.37.1 Application of Special Charges

Special charges may apply in addition to the usual service connection charges and monthly rates when unusual investment or expense will be incurred by the Company. Special charges will apply when:

- (a) conditions or Customer request which requires the provision of special equipment or unusual or nonstandard methods of plant construction, installation or maintenance or a move of the Company's facilities;
- (b) the Customer's location requires the use of costly private right-of-way; or
- (c) the proposed service is of a temporary nature, and the plant to be placed would not be useful to the Company in the general conduct of its business after that service was discontinued.

4.37.2 Customer Requirements for Special Charges

- A. The Company shall retain title to all plant constructed, as specified within this tariff, provided wholly or partially at the Customer's expense.
- B. When attachments are made to poles of other companies, instead of providing construction for which the Customer would be charged under the provisions of this section, the Customer shall pay the Company's cost for such attachments.
- C. The Customer is required to pay the construction charges made by another telephone company providing facilities to connect with the facilities of the Company.

SECTION 4 – GRANDFATHERED SERVICE OFFERINGS (CONT'D.)

4.37 Other Special Charges. (Cont'd.)4.37.3 Construction on Private Property

- A. The Company will furnish an average amount of entrance and distribution facilities, provided the facilities are of the standard type normally furnished for the particular location or kind of service.
- B. If additional entrance or distribution facilities are required, or if conditions require special equipment, maintenance or methods of construction, if the installation is for a temporary purpose, or if for any other reason, the construction costs are excessive as compared with the revenue to be derived from the project, the applicant may be required to pay for costs over and above the costs applicable for a normal installation.
- C. The Customer will provide the Company upon request and without charge written permission for the placement of the Company's facilities on his property.
- D. The Customer is responsible for providing satisfactory entrance to the building and space for mounting any necessary network protection equipment.

4.37.4 Temporary Service

Where plant construction is required to provide any temporary service or facility, or where it is necessary to place temporary construction in advance of permanent construction in order to meet the Customer's requirements, the Customer shall be charged the estimated cost of construction and removal of the plant which would not be of value to the Company, less the estimated net recovery value of the material used.

SECTION 5 - CURRENT RATES & CHARGES, (CONT'D.)

5.46 True Business Total Communications and Digital Total Communications¹

True Business Total Communications and Digital Total Communications is designed for customers who need high-speed Internet Access and have a minimum of 6 voice channels. True Business Total Communications integrates voice and data services on a single high capacity facility. The service characteristics and capabilities of the voice services described in this Section are as described in this tariff for multi line business.

The True Business Total Communications Base Package includes 6 voice channels, 512K of Internet Access, unlimited local calling, 3000 minutes of IntraLATA calling, and choice of 6 features per line from the You Choose Feature Package².

Customers may increase the number of voice channels in one-channel increments (up to a maximum of 23 total voice channels). Incremental voice lines include unlimited local calling, 500 minutes of IntraLATA calling, and choice of 6 features per line from the You Choose Feature Package². The data speed may be increased in 64K increments.

The charges for voice lines are inclusive of appropriate End User Common Line (EUCL), Local Number Portability (LNP), Primary Interexchange Carrier Charges (PICC), Hunting, and Touch Tone charges.

Customers must sign a minimum (1) year term agreement for True Business Total Communications. Package pricing is determined by the contract length (one-year or two-year term). Full termination liabilities are assessed for early termination of service.

<u>Monthly Recurring Charges</u>	<u>1 Yr. Term</u>	<u>2 Yr. Term</u>	<u>3 Yr. Term</u>
Voice Package Price	\$ 300.00	\$ 250.00	\$ 200.00
Incremental Line Price	\$ 90.00	\$ 80.00	\$ 70.00

Non-Recurring Charges

Base Package Installation Fees	\$400
Incremental Voice Line Package Installation Fees ³	\$50

¹ True Business Total Communications and Digital Total Communications is not eligible for further discounting.

² Please Reference Section 11.4 in this tariff document for the You Choose Feature Package.

³ Applies to add incremental lines to existing service.

6.32 True Business Total Communications and Digital Total Communications¹

True Business Total Communications and Digital Total Communications is designed for customers who need high-speed Internet Access and have a minimum of 6 voice channels. True Business Total Communications integrates voice and data services on a single high capacity facility. The service characteristics and capabilities of the voice services described in this Section are as described in this tariff for multi line business.

The True Business Total Communications Base Package includes 6 voice channels, 512K of Internet Access, unlimited local calling, 3000 minutes of IntraLATA calling, and choice of 6 features per line from the You Choose Feature Package².

Customers may increase the number of voice channels in one-channel increments (up to a maximum of 23 total voice channels). Incremental voice lines include unlimited local calling, 500 minutes of IntraLATA calling, and choice of 6 features per line from the You Choose Feature Package². The data speed may be increased in 64K increments.

The charges for voice lines are inclusive of appropriate End User Common Line (EUCL), Local Number Portability (LNP), Primary Interexchange Carrier Charges (PICC), Hunting, and Touch Tone charges.

Customers must sign a minimum (1) year term agreement for True Business Total Communications. Package pricing is determined by the contract length (one-year or two-year term). Full termination liabilities are assessed for early termination of service.

<u>Monthly Recurring Charges</u>	<u>1 Yr. Term</u>	<u>2 Yr. Term</u>	<u>3 Yr. Term</u>
Voice Package Price	\$ 300.00	\$ 250.00	\$ 200.00
Incremental Line Price	\$ 90.00	\$ 80.00	\$ 70.00

Non-Recurring Charges

Base Package Installation Fees	\$400
Incremental Voice Line Package Installation Fees ³	\$50

¹ True Business Total Communications and Digital Total Communications is not eligible for further discounting.

² Please Reference Section 11.4 in this tariff document for the You Choose Feature Package.

³ Applies to add incremental lines to existing service.
